Campbell Town	42
Hamilton	40
Oatlands	44
Ross	43

Western Division

Gormanston	48
Queenstown	47
Strahan	49
Waratah	45
Zeehan	46

The Hobart Statistical Division (see map below) is a new grouping introduced at the Census of 30 June 1966; consequential changes to the South Eastern and Southern Divisions were also involved. In this publication only the Demography and Finance bulletins employ the new groupings; however, as from the 1966-67 issue of this publication, all bulletins will use the new groupings.

Produced by the Lands and Surveys Department, Hobart.

Conjugal Condition	9
Birthplaces	9
Nationality	9
Population in Urban Centres	10
3. ARRIVALS AND DEPARTURES	
Recorded Arrivals and Departures, Tasmania, 1957 to 1966	10
4. MARRIAGES	
Marriages According to Local Government Areas and Religious Denominations—1966 and Summary, 1957 to 1966	11
Age and Conjugal Condition of Bridegrooms and Brides, 1966	12
Average Age of Bridegrooms and Brides, 1957 to 1966	12
Marriages in each Month, 1957 to 1966	12
Relative Birthplaces and Age Groups of Bridegrooms and Brides, 1966	13
5. DIVORCES	
Petitions for Dissolution of Marriage, 1957 to 1966	14
Dissolutions of Marriage—According to Petitioner and Grounds, 1926 to 1966	14
Ages of Parties, 1966	15
Duration of Marriage and Issue, 1966	15
6. BIRTHS	
Births in each Local Government Area by Age Group of Mother, 1966	16
Births According to Age Groups and Districts of Usual Residence of Mother, 1966	17
Births According to Age Group of Mother, 1957 to 1966	18
Age-specific Birth Rates 1954, 1961 to 1966	18
Ex-Nuptial Births, 1962 to 1966	18
Nuptial First Births—Age of Mother and Duration of Marriage, 1966	19
Confinements—Relative Ages of Parents, 1966	20
Relative Birthplaces of Parents, 1966	21
7. INFANT MORTALITY	
Infant Mortality Rates in Statistical Divisions, 1966	22
Infant Deaths and Mortality Rates by Age, 1962 to 1966	22
Causes of Deaths and Age at Death of Children Under One Year of Age, 1966	23
8. DEATHS	
Deaths in each Local Government Area by Age, 1966	24
Deaths at Single Ages and in Age Groups, 1957 to 1966	25
Abbreviated List of 50 Causes of Death—Numbers and Rates, 1966	26
Deaths Registered in Tasmania—Causes and Age Groups, 1966	27–47
Deaths From Malignant Neoplasms (All Forms), 1870 to 1966	48
Deaths From Tuberculosis, 1870 to 1966	48
Deaths, Death Rates and Mortality Indexes, 1901 to 1966	49
Crude Death Rates, 1921, 1933, 1947, 1954, 1961 and 1966	49
Death Rates in Age Groups, 1932-1934, 1946-1948, 1953-1955 and 1960-1962	49
9. MISCELLANEOUS	
Births, Deaths, Marriages, Divorces, and Infant Deaths, 1861 to 1966	50
Births, Deaths, and Natural Increase in Local Government Areas, 1966	51
Births and Deaths in each Month, 1966; Proportion of Total births and deaths registered in each month, 1957 to 1966	52
Notifiable Diseases in Local Government Areas, 1966	53
Venereal Diseases—Type and Number of Cases Notified, 1966	53
10. AUSTRALIAN LIFE TABLES	
Elementary Values, 1960-1962, Male Lives	54
Elementary Values, 1960-1962, Female Lives	55
Comparative Expectation of Life, 1901-1910 to 1960-1962	56
Rates of Mortality—Ratio of Rates for One Period with Rates for the Preceding Period	56

EXPLANATORY NOTES ON STATISTICAL DIVISIONS, ETC.

Further changes, operative from 1 January 1966, were made to the Statistical Divisions etc. of Tasmania. However, these latest changes affect only the southern part of the State; their effect is to enlarge and rename the Statistical Division containing Hobart and Glenorchy, and to correspondingly diminish the area of the adjacent Southern and SE. Statistical Divisions. Details are shown below and illustrated in the map on page 4.

Statistical Divisions

Whilst the enlarged Division containing Hobart and Glenorchy has been *renamed*, the diminished Southern and South Eastern Divisions *retain the same name*. Care should be taken in comparing these Divisions' figures for earlier years with figures for 1966 and later periods. The changed Divisions and their composition are listed below:

CHANGED STATISTICAL DIVISIONS

Changed Divisions	New Components (in terms of Local Government Areas)	Nature of Change
Hobart Statistical Division (replaces South Central Division and area greatly enlarged)	Hobart, Glenorchy, Clarence plus *part* of Brighton, Kingborough, New Norfolk and Sorell	South Central Division (Hobart and Glenorchy) absorbed and *part* of previous Southern and SE. Divisions incorporated
South Eastern (name unchanged but area diminished)	Glamorgan, Green Ponds, Richmond, Spring Bay, plus *part* of Brighton and Sorell	Clarence plus *part* of Brighton and Sorell transferred to Hobart Division
Southern (name unchanged but area diminished)	Bruny, Esperance, Huon, Port Cygnet, Tasman, plus *part* of Kingborough and New Norfolk	*Part* of Kingborough and New Norfolk transferred to Hobart Division

In tables, totals are shown for complete Local Government Areas but, in arriving at totals for the three Divisions above, account is taken of partitioned areas (i.e. Brighton, Sorell, Kingborough and New Norfolk).

Hobart Metropolitan Area

From 1 January 1966, this replaces the previous 'Hobart and Suburbs' and includes only the *continuous* area of urban development (based on Australia-wide density criteria); thus rural parts of Hobart and Glenorchy and the suburbs of Kingston and Blackmans Bay are now excluded. The Hobart Metropolitan Area includes the urban portions of Hobart City, Glenorchy City, Taroona south to the Shot Tower and the eastern suburbs from Risdon Vale south to Tranmere.

Urban Launceston

Although defined as the area of continuous development, Urban Launceston differs little from the previous Launceston and Suburbs.

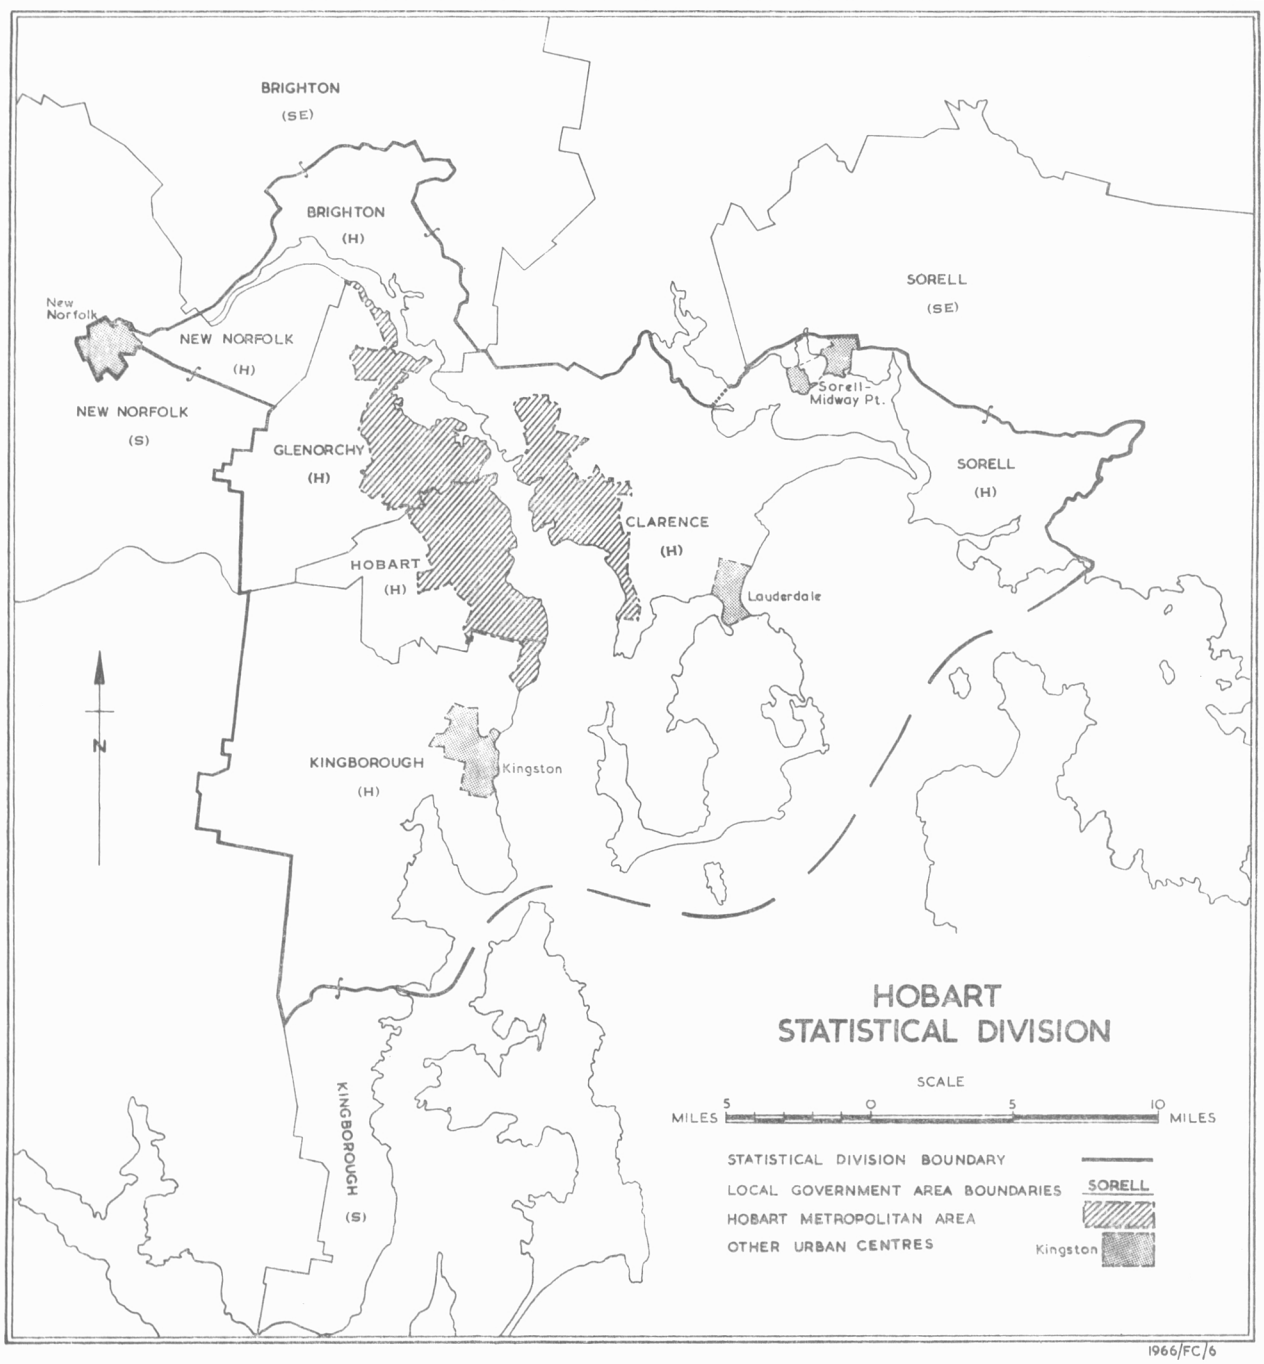

Other Urban Centres

These are population clusters of 1,000 or more persons, having a minimum density of 500 persons per square mile. In addition some areas of lower population and/or density are classified as 'urban' on other grounds, e.g. holiday areas, industrial areas etc. Details of population of principal urban areas at the census of 30 June 1966 may be found on page 10.

STATISTICAL DIVISION BOUNDARY CHANGES, 1 JANUARY 1966

The following shows the make-up of the Hobart Statistical Division, composed of 3 whole Local Government Areas and parts of 4 others. The letters next to the name of each Local Government Area on the map below indicate which municipalities have been partitioned, and the effect of this on the South Eastern and Southern Divisions.

Local Government Area	Statistical Division
Hobart	Hobart
Glenorchy	Hobart
Clarence	Hobart
Brighton	South Eastern and Hobart
Sorell	South Eastern and Hobart
Kingborough	Southern and Hobart
New Norfolk	Southern and Hobart

NOTE: The following abbreviations for statistical divisions are used in the map above and in Local Government Area tables throughout the Bulletin—(H)=Hobart Statistical Division; (SE)=South Eastern Statistical Division; and (S)=Southern Statistical Division.

1. POPULATION

NOTE: Full-blood aborigines are included in this section from 30 June 1961; prior to that date they were excluded.

ESTIMATED POPULATION, 30 JUNE AND 31 DECEMBER; MEAN POPULATION, FINANCIAL AND CALENDAR YEARS

Year	Estimated Population						Mean Population	
	At 30 June			At 31 December			Year ended 30 June	Year ended 31 Dec.

(a) Excludes 1 full-blood aborigine.
(b) All persons of individual citizenship status who by virtue of the Nationality and Citizenship Act 1948, are deemed to be British subjects. For purposes of this table Irish nationality is included with British.

POPULATION: URBAN CENTRES, 1961 AND 1966

NOTES: (i) For Metropolitan and other urban centres, which are delimited by moving boundaries (see Explanatory Notes on pages 3 and 4), boundaries for 1961 have been redrawn according to the new criteria. The urban populations (partly estimated) within these boundaries are shown in this table for comparison with 1966 population. The intercensal increase or decrease between 1961 and 1966 may therefore reflect (i) population changes within the original 1961 boundaries, (ii) urban growth beyond the original boundaries, and (iii) the merging of other urban areas, one with another, or with the Metropolitan Area.

(ii) In the table below—

(*a*) The following abbreviations are used: (C)=City; (M)=Municipality; n.a.=not available.
(*b*) The minus sign (−) denotes a decrease in population.
(*c*) Only 1966 urban centres are included.

Urban Centre (with L.G.A. components)	Census, 30 June 1961	Census, 30 June 1966			Intercensal Increase or Decrease

1966	33	69	27	13	142	25	72	47	33	177	319

(*a*) Includes nullities of marriage and judicial separations.
(*b*) The Commonwealth Matrimonial Causes Act 1959, which came into operation on 1 February 1961, supersedes the State Matrimonial Causes laws except in so far as the transitional provisions of the Act keep them in force for the purpose of completing pending proceedings.
(*c*) Separation became a ground for dissolution under the Commonwealth Matrimonial Causes Act 1959 (see note (*b*)).
(*d*) Includes, from 1961, dissolutions on multiple grounds.

(a) Causes of death for ages stated in weeks and months are shown on page 23
(b) The classification used for Class XVII is that according to external cause (the E code).

DEATHS FROM MALIGNANT NEOPLASMS (ALL FORMS), COMPARED WITH DEATHS FROM ALL CAUSES

NOTE: Owing to changes in classification and in the methods of determining a single cause of death in cases where multiple causes are shown on the death certificate, the figures in the following table are not strictly comparable throughout the whole period. However, the figures from 1950 onwards are on a comparable basis.

Year	Number of Deaths			Death Rate Per 100,000 of Mean Population	Proportion of Deaths from All Causes (Per cent)
	Males	Females	Persons		
1870-79 (*a*)	27	22	49	47	3.0
1880-89 (*a*)	33	30	63	50	3.2
1890-99 (*a*)	42	40	82	52	4.0
1900-09 (*a*)	51	53	104	57	5.4
1910-19 (*a*)	68	74	142	73	7.2
1920-29 (*a*)	92	93	185	86	8.9
1930-39 (*a*)	125	128	253	109	11.3
1940-49 (*a*)	138	149	287	115	11.6
1950-59 (*a*) (*b*)	187	180	367	118	14.1
1950 (*b*)	159	164	323	115	13.1
1951	182	180	362	126	14.1
1952	171	188	359	120	13.9
1953	178	168	346	112	13.6
1954	196	197	393	126	14.6
1955	187	181	368	117	14.8
1956	191	185	376	117	15.0
1957	213	173	386	118	14.5
1958	200	191	391	117	14.4
1959	197	171	368	108	13.2
1960	230	177	407	117	15.2
1961	200	196	396	113	14.2
1962	263	203	466	129	16.2
1963	207	211	418	115	14.8
1964	230	221	451	123	14.2
1965	246	233	479	130	15.7
1966	251	245	496	133	15.7

(*a*) Annual average for the ten year period.
(*b*) As from 1950, neoplasms of lymphatic and haematopoietic tissues are included.

DEATHS FROM TUBERCULOSIS (ALL FORMS) COMPARED WITH DEATHS FROM ALL CAUSES

NOTE: The note at the head of the above table applies to this table also.

Year	Number of Deaths			Deaths Rate Per 100,000 of Mean Population	Proportion of Deaths from All Causes (Per cent)
	Males	Females	Persons		
1870-79 (*a*)	71	64	135	128	8.2
1880-89 (*a*)	80	74	154	124	7.7
1890-99 (*a*)	87	84	171	109	8.3
1900-09 (*a*)	81	84	165	91	8.4
1910-19 (*a*)	71	73	144	74	7.2
1920-29 (*a*)	74	71	145	67	7.0
1930-39 (*a*)	66	60	126	55	5.7
1940-49 (*a*)	59	47	106	43	4.3
1950-59 (*a*)	22	16	38	13	1.5
1950	27	44	71	25	2.9
1951	32	36	68	23	2.6
1952	36	19	55	18	2.1
1953	14	10	24	8	0.9
1954	27	8	35	11	1.3
1955	20	11	31	10	1.2
1956	20	12	32	10	1.3
1957	14	2	16	5	0.6
1958	20	11	31	9	1.1
1959	13	6	19	6	0.7
1960	14	8	22	6	0.8
1961	10	5	15	4	0.5
1962	11	1	12	3	0.4
1963	10	4	14	4	0.5
1964	10	1	11	3	0.3
1965	6	3	9	2	0.3
1966	6	5	11	3	0.3

(*a*) Annual average for the ten year period.

NUMBER OF DEATHS, DEATH RATES AND MORTALITY INDEXES

Year	Number of Deaths			Crude Death Rates per 1,000 of Mean Population			Mortality Indexes (Base Year 1901 = 1.000) (a)			Ratio of Male to Female Mortality (a)
	Males	Females	Persons	Males	Females	Persons	Males	Females	Persons	
1901	1,001	813	1,814	11.16	9.82	10.51	1.000	1.000	1.000	1.136
1911	1,037	890	1,927	10.70	9.55	10.14	0.959	0.973	0.965	1.120
1921	1,166	1,031	2,197	10.82	9.76	10.30	0.970	0.994	0.980	1.109
1931	1,093	964	2,057	9.65	8.65	9.15	0.865	0.881	0.871	1.116

10. AUSTRALIAN LIFE TABLES

AUSTRALIAN MALE LIVES, 1960 TO 1962: ELEMENTARY VALUES

l_x = Number surviving at each age out of 100,000 born
d_x = Number dying in each year of age out of 100,000 born
p_x = Probability of surviving one year at each age
q_x = Probability of dying within one year at each age
μ_x = Force of mortality at each age
$\mathring{e}_x$ = Complete expectation of life at each age

Age x	l_x	d_x	p_x	q_x	μ_x	$\mathring{e}_x$	Age x	l_x	d_x	p_x	q_x	μ_x	$\mathring{e}_x$

AUSTRALIAN FEMALE LIVES, 1960 to 1962: ELEMENTARY VALUES

l_x = Number surviving at each age out of 100,000 born
d_x = Number dying in each year of age out of 100,000 born
p_x = Probability of surviving one year at each age
q_x = Probability of dying within one year at each age
μ_x = Force of mortality at each age
$\overset{\circ}{e}_x$ = Complete expectation of life at each age

Age x	l_x	d_x	p_x	q_x	μ_x	$\overset{\circ}{e}_x$	Age x	l_x	d_x	p_x	q_x	μ_x	$\overset{\circ}{e}_x$

OVERSEAS AND INTERSTATE TRADE AND SHIPPING

BASIC DOCUMENTS

Overseas Trade statistics have been derived from documents obtained under the Customs Act by the Department of Customs and Excise and compiled by the Commonwealth Bureau of Census and Statistics, Canberra.

Interstate Trade by Sea statistics have been derived from documents obtained by Marine Boards under the Marine Act and compiled by the Tasmanian Office of the Commonwealth Bureau of Census and Statistics.

Interstate Trade by Sea statistics have been derived from documents obtained by Marine Boards under the of the Commonwealth Bureau of Census and Statistics by all those who use this medium for the interstate transportation of goods.

Shipping statistics have been compiled by the Commonwealth Bureau of Census and Statistics, Canberra, from details supplied by the Department of Customs and Excise and by State Authorities controlling ports and harbours. Warships are excluded from all tables.

SCOPE OF THE STATISTICS

The statistics included in this bulletin relate to:

(*a*) goods imported and exported by sea and air as part of Tasmania's trade with other Australian States and Overseas countries.

(*b*) vessels from other Australian States and Overseas countries entered and cleared and cargo discharged and shipped at ports in Tasmania.

DEFINITIONS AND EXPLANATORY NOTES

Country of Consignment or Origin: The overseas countries shown are those from and to which direct shipments are made. Goods shown as imported from other Australian States include those goods imported from overseas and trans-shipped to Tasmania. Similarly, exports to other Australian States include goods exported for trans-shipment overseas.

External territories under Australian administration (e.g. Papua and New Guinea and Nauru) are treated as overseas countries. The separation of Commonwealth and Foreign countries as shown in previous bulletins has been discontinued. Countries are now shown in alphabetical order.

Valuation: All values in this bulletin are expressed in $ (Aust.) and are determined on a 'free on board (f.o.b.) port of shipment' basis. All monetary amounts originally recorded in the old currency have been converted to equivalent amounts in decimal currency. The procedure adopted to value overseas and interstate trade is as follows:

Overseas exports are valued at the Australian f.o.b. port of shipment equivalent of the actual price at which the goods were sold or, where shipped on consignment, of the price paid for similar goods of Australian origin in the principal markets of the country to which they are dispatched for sale. The recorded values include the cost of containers and outside packages.

The recorded values of overseas imports is the 'value for duty' as laid down for customs purposes, i.e. the f.o.b. port of shipment equivalent of the actual price paid by the importer plus any special deduction (transaction value) or of the current domestic value in the exporting country, whichever is the higher.

Interstate Imports and Exports are valued at the f.o.b. port of shipment equivalent of the actual price at which the goods were sold.

Quantity Data: Where quantities are shown, they are expressed as far as possible in terms of the normal trade unit. Quantities are not quoted in respect of any commodity for which there is no appropriate unit of quantity or for any statistical item which covers a number of commodities that cannot be recorded under a uniform unit of quantity.

Commodity Classification: Up to 1964-65 trade statistics were compiled according to the 'Statistical Classification of Imports and Exports'. From July 1965 imports have been classified to the new Australian Import Commodity Classification. This classification is based on the Standard International Trade Classification, Revised (S.I.T.C.). The basis of the classification of exports remained unchanged for 1965-66. A new Australian Export Commodity Classification based on S.I.T.C. was introduced in July 1966.

Outside Packages: The value of containers, crates, etc. in which goods are imported from overseas is omitted from all import tables. For 1965–66 the recorded value of these outside packages was $527,261. For overseas exports however, the recorded value for each item includes the cost of the outside packages.

Tourists' etc. Motor Vehicles: Details of tourists' etc., motor vehicles entering and leaving the State are included in trade statistics. The inauguration of interstate vehicular ferry services in recent years has resulted in a sharp increase in the movement of such vehicles and, in 1965-66, about $19,500,000 of both import and export values derived from this source. As vehicles entering and leaving the State in a year are in approximate balance the State's balance of trade is virtually unaffected by their inclusion.

Ports in Tasmania: The names of ports in tables throughout this bulletin refer to the cities or towns in which the controlling Marine Boards are located. Thus 'Hobart' includes Port Huon; 'Launceston' includes Bell Bay, etc. On 1 January 1963 the port of Ulverstone came under the control of the Marine Board of Devonport, and from that date trade through Ulverstone has been included under 'Devonport'.

Rounding: Where figures have been rounded in this publication, any discrepancies between totals and sums of components are due to rounding.

(*a*) See definition under 'Country of Consignment or Origin' on page 3.
(*b*) Not available for publication; included in 'Other Countries'.
(*c*) Includes Singapore to 30 September 1965.
(*d*) Included in Malaysia.
(*e*) Recorded separately from 1 October 1965; previously included in Malaysia.
(*f*) Country of consignment not determined at the time of export.

(a) The figures given for each port do *not* take into account coastal movement of shipping. Ships are recorded as arrivals at the *first* Tasmanian port of call only, and as departures only at the *last* port of call in Tasmania. A vessel coming direct to Stanley from Melbourne, calling at Burnie, Ulverstone, Devonport and Launceston and leaving the latter port for Sydney, would be recorded only as an arrival at Stanley and a departure from Launceston. For total shipping (including coastwise) at each port, see following table.
(b) Includes shipping through the port of Ulverstone from January 1963; see note on page 3.
(c) July to December 1962 only; see note on page 3.
(d) Included in Devonport; see note on page 3.

VESSELS ON TASMANIAN REGISTERS

NOTE: The Merchant Shipping Act does not make it necessary to register vessels under 15 tons burden if engaged in river or coastal trade. Larger vessels are also exempt from registration if not engaged in trade. Yachts and small trading vessels may be registered at the request of the owners.

CARGO DISCHARGED AND SHIPPED

NOTE: Cargo is recorded either in units of weight ('tons weight') or in units of volume ('tons measurement' equal to 40 cu ft) As totals derived from conversion to a common weight, or alternatively, to a common volume, would not be accurate, entries in each of the two units are recorded and published separately.

Employment in Forestry Department at 30 June, Summary 1962 to 1966	54
Fishing: Block and Estuary Numbers, Tasmania	55
Quantity and Value of Catch Landed and Boat Registrations, 1963-64 to 1965-66	55
Catch of Crayfish and Major Species of Fish by Block and Estuary Number, 1965-66	56
Number and Value of Boats Registered in Tasmania and Usual Number of Crew, 1966	56
Catch of Crayfish and Fish by Port of Landing, 1965-66	57
Fish: Catch by Species, 1965-66	57
Boats Registered in Tasmania Classified According to Length and Age	57
Quantity of Fish and Crayfish Landed Monthly at Tasmanian Ports and Men and Boats Engaged, 1965-66	58
Exports and Imports of Fish, Tasmania, 1961-62 to 1965-66	58
Mining and Quarrying: Value of Output by Industry and Summary of Operations, 1963 to 1965	59
Quantities of Minerals and Construction Materials Produced, 1961 to 1965	60–61
Classification of Mines and Quarries According to Number of Persons Employed, 1963 to 1965	61
Average Daily Prices of Refined Metals, Australia, 1959 to 1964	61
Assayed Contents of Metallic Minerals Produced, 1961 to 1965	62

8. VALUE OF PRODUCTION

Gross, Local and Net Value of Production, Primary Industries, 1965-66	63
Gross Value of Production, Agriculture: 1965-66	64
Summary, 1960-61 to 1965-66	65
Pastoral, Dairying, Poultry and Bees, Summary, 1961-62 to 1965-66	66
All Primary Industries, Summary, 1956-57 to 1965-66	66
Net Value of Production of Primary Industries, and Factories, Summary, 1948-49 to 1965-66	67
Average Unit Gross Value of: Crops, 1956-57 to 1965-66	68
Livestock Sold for Slaughter, 1961-62 to 1965-66	68

9. APPENDIX

Specimen Collection Schedule: Agricultural, Dairying and Pastoral Statistics	69–72

METEOROLOGY

Summary of Meteorological Conditions, 1966 and Times of Planting, Harvesting, Shearing, Lambing, etc.	73
Monthly Meteorological Observations, Hobart, 1966	74
Monthly Rainfall: Hobart, 1952 to 1966 and Average	74
Representative Stations, 1964 to 1966 and Average	75–76
Rainfall in Districts, 1961 to 1966 and Monthly 1966, Inches Recorded and Ratio of Actual to Average	77
Maximum and Minimum Mean Temperatures at Selected Stations, 1965, 1966 and Average	78

GENERAL NOTES

Values in this publication are expressed in dollars ($) and/or cents (c) Australian.

Where figures have been rounded in this publication, any discrepancies between totals and sums of components are due to rounding.

RURAL INDUSTRY STATISTICS

SCOPE

The Statistics contained in this Bulletin are, in general, compiled annually. They comprise: Number, area and land utilisation on rural holdings; area, production and yield per acre of crops; number of holdings growing principal crops; areas sown to grasses and clovers; livestock numbers at 31 March; breeds of sheep; lambing; shearing; wool production; classification of wool; slaughterings and meat production; dairy production and utilisation; bee-farming; rural employment; principal items of farm machinery; irrigation; fertilisers used; and various other miscellaneous items. Additional details relating to farm machinery are compiled triennially and rural holdings classified by size and type at irregular intervals.

SOURCES OF INFORMATION

The statistics are, in the main, compiled from census returns (see Appendix 'A') of agricultural, pastoral and dairying production collected from some 11,000 rural holdings in Tasmania at 31 March each year. In conjunction with the general census, supplementary collections from farms are conducted where the harvesting of certain crops has not been completed by the 31 March (e.g. apples, potatoes).

Additional information is also obtained from a number of entirely separate collections covering such data as slaughterings, meat production and dairy production and from various outside authorities.

PERIOD COVERED

Data relating to area sown, production, yield per acre and number of holdings growing crops are, in general, for the season ended 31 March. In cases where harvesting has not been completed by 31 March (e.g. potatoes) total production is nevertheless included.

Livestock numbers are reported as at 31 March but production of livestock products have, in general, been shown for the twelve months ended 30 June.

Farm machinery on rural holdings is reported as at 31 March.

A seasonal calendar showing approximate dates of planting and harvesting, shearing, lambing and slaughtering for export appears on page seventy-one of this Bulletin.

DEFINITIONS AND EXPLANATORY NOTES

Rural Holdings: A 'rural holding' is defined for the purpose of these statistics as a piece of land of one acre or more in extent, used for the production of agricultural products or for the raising of livestock and the production of livestock products. In cases where land owners or occupiers possess or work more than one holding, separate returns are required for each except where the holdings are in close proximity and are worked as one.

During 1965 extensive checks were made of the lists of rural holdings against other sources of information and as a result 600 holdings previously excluded from the census were included in 1966. Most of these were relatively small and contributed no more than one per cent to State totals of most crop and livestock items.

Up to 1965 the census included a large number of marginal holdings most of which were small and used for residential purposes only. Approximately 800 of these holdings were excluded from the 1966 census.

The net result of these two factors was an overall decline of approximately 200 holdings at 31 March, 1966 as compared with the previous year.

Area of Crops: Total area of land sown or planted to crops is shown irrespective of whether the whole area was subsequently harvested or whether a portion or the whole of the crop failed and was not harvested.

Where two successive crops are grown on the same land during the one season, the land is included twice in area of crops. Where two crops are grown together, however, the area is counted once only and is divided between the different crops according to the proportion of each crop grown. No data on the area planted to individual varieties of orchard fruits are collected but estimates are included in this Bulletin based on the reported total acreage and number of trees of each variety planted.

Yield Per Acre: Statistics published in this Bulletin relate to yield per acre sown or planted. Data as to acreages of crops actually *harvested* (as distinct from *sown* or *planted*) are not collected and consequently particulars of yield per acre harvested are not available. In the case of fruit and hops the yields shown are per acre of bearing crops.

Persons Working on Holdings: Details are collected on the general farm census of persons working on rural holdings at 31 March. Persons working permanently full-time include all other than casual or seasonal workers and females engaged principally in domestic duties, children attending schools and other persons working only part-time. Casual or seasonal workers including contractors for shearing, fencing, etc., are shown as temporary employees.

Attention is drawn to the difficulty encountered in obtaining data on persons employed on a comparable basis from year to year. The difficulty applies mainly to females and arises because of the tendency of many farmers to include part-time family helpers as full-time workers in their returns.

Classification of Greasy Wool According to Quality: Statistics of greasy wool sold at auction according to the predominant quality of the wool are compiled by the Wool Statistical Service. The quality of the wool (expressed as 64s, 60s, 58s, etc.) is a measure of the fineness and texture of wool for spinning purposes. Broadly it means the maximum number of hanks (lengths of yarn each of 560 yards) which can be spun from 1 lb of combed wool. For instance, wool of 64s quality is of a fineness and texture which will produce 64 hanks from 1 lb of tops (combed wool) of that particular wool.

Livestock Slaughtered and Meat Production: Monthly returns are collected from principal slaughterers (abattoirs, meat works and bacon factories) and these, together with annual returns for all other slaughterers (the general census return from farms and a special return from other small slaughterers), provide the necessary data for compiling both monthly and annual estimates for all livestock slaughtered and meat production.

Livestock shown as slaughtered for human consumption exclude those subsequently condemned.

Statistics of meat production are recorded in terms of carcass (bone-in) weight. Edible offal other than kidneys and pigs' tongues are excluded.

Dairy Production: Total whole milk production has been estimated by the conversion of butter, cheese and cream production (both factory and farm) to milk equivalents together with estimates of fluid milk consumption which have been based on data supplied by the Milk Board.

Milk production per dairy cow has been based on the number of dairy cows which were in milk during any part of the year (the mean of the numbers of dairy cows dry and in milk at 31 March of the current year and at 31 March of the previous year has been taken for this purpose). It is lower than for cows kept entirely for milking purposes or for cows yielding during the greater part of the year.

Weights and Measures: Cereals, orchard fruits and certain other products are generally recorded in bushels. Whilst the weight of a bushel varies according to the nature of the product it is also subject to considerable variation for the individual products on account of such things as variety and method of packing. However, average bushel equivalent weights, as set out below may be used for the conversion of each of these products to pounds weight avoirdupois.

BUSHEL WEIGHTS
(lb per bushel)

Product	lb per bushel	Product	lb per bushel	Product	lb per bushel
Apples	42	Lucerne Seed	60	Peas in Pod (Green)	28
Apricots	48	Mustard Seed	50	Plums and Prunes	58
Barley	50	Nectarines	50	Quinces	42
Beans, French (Green)	20	Oats	40	Rye	60
Beans, Horse (Tic)	60	Peaches	45	Tares	60
Cherries	48	Pears	45	Tomatoes	48
Grass Seed	20	Peas, field (dry)	60	Wheat	60

NON-RURAL INDUSTRY STATISTICS

SCOPE

Forestry: The statistics included in this section relate to forest areas available for exploitation: the production of timber and other forest products; and employment details of the Forestry Department of Tasmania.

Fishing: Details relate to catch and effort statistics for boats licenced to fish Tasmanian waters, their crews and equipment; exports and imports of fish; and value of production of the industry.

Mining and Quarrying: Particulars comprise the production of minerals (mine and quarry products), assayed contents of ores and concentrates, employment in mines, costs of production, value of output and size classifications of mines and quarries.

SOURCES OF INFORMATION

Forestry: The source of most information, excepting that collected by this Bureau as part of the annual factory census (i.e. timber and other forest products), is the Forestry Department of Tasmania.

Fishing: In all cases the information is collected by the Fisheries Division of the Department of Agriculture and processed by the Bureau.

Mining and Quarrying: An annual census of mines and quarries is conducted by the Bureau and details are collected for calendar years. In the main table covering employment, materials used, salaries and wages etc., details are shown firstly for those mines and quarries employing four or more persons, to achieve uniformity with other Australian States, and secondly for all mines and quarries. Details relating to those tin mines with production valued at less than $1,000 are included only in value of output and value of production items.

Statistics relating to quantities of minerals produced are, in the main, obtained from the State Mines Department and are supplemented, where necessary, with data obtained from the annual census of mines and quarries and from the Commonwealth Bureau of Mineral Resources.

PERIOD COVERED

Unless otherwise stated, forestry and fishing statistics relate to the year ended 30 June, and mining and quarrying statistics to the year ended 31 December.

DEFINITIONS AND EXPLANATORY NOTES

Mining: For statistical purposes, the mining and quarrying industry is defined as including all mining and quarrying, and the recovering of minerals from ore dumps, tailings, etc; ore dressing and elementary smelting of metallic minerals (e.g. in the case of gold) when carried out at or near the mine are included. However, establishments primarily engaged in smelting and/or refining (including the smelting and refining sections of Mt Lyell), are omitted and are classified to the manufacturing industry (see Secondary Industries bulletin).

This definition differs from that of the state Mines Department which includes in its statistics the smelting and refining operations carried out at Mt Lyell, and, in respect of minerals originating in Tasmania, at Risdon. For Mt Lyell, only those operations up to the point of production of copper concentrate are included in the Bureau's mining statistics, while smelting is included in factory statistics. Refining operations carried out at Risdon are also included in factory statistics.

Also included in the mining and quarrying industry are quarries operated by brickworks, cement works, etc., and those winning direct construction materials such as sand, gravel, building stone, and broken and crushed stone for road making, etc.

Forestry: As from 1965-66 statistics of forest areas are not comparable with those for earlier years. In 1966 the State Forestry Department adopted a Food and Agricultural Organisation recommendation that *potentially exploitable* forests be defined as 'Forests whose growth is too low to warrant industrial exploitation at present time or where transport costs to the nearest market are prohibitive'. It follows that *exploitable* forests are the exact opposite of this definition.

VALUE OF PRODUCTION

SCOPE

The data used are those concerning quantity of primary production (see page 4) together with information collected from various sources on prices realised in the principal markets for different products, the costs of marketing these products and the costs of certain materials used in their production.

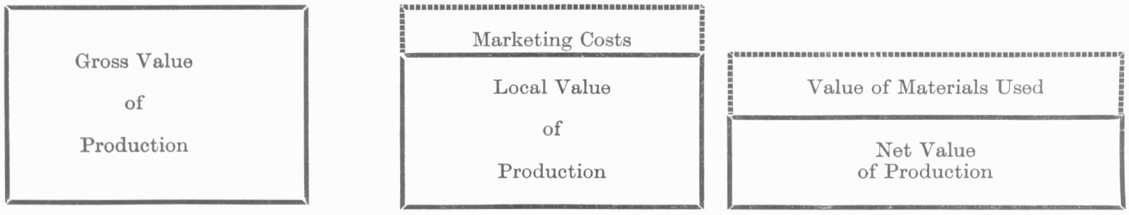

SOURCES OF INFORMATION

Price and cost data are obtained from statutory authorities (e.g. Dairy Produce Equalisation Committee), market reports, special returns collected from wholesalers, brokers, auctioneers, etc., annual factory returns (showing cost of raw material delivered to factory) and from overseas and interstate trade statistics.

PERIOD COVERED

The period covered is the same as stipulated for the quantitative information referred to on page 4 (i.e. in most cases the year ended 31 March).

(IV) DEFINITIONS AND EXPLANATORY NOTES

Gross Value of Production: This is the value placed on recorded production at the wholesale prices realised in the principal markets. In cases where primary products are consumed locally, or where they become raw material for a secondary industry, these points are presumed to be the principal market. Products sold interstate or overseas are valued at f.o.b. Tasmanian port prices. If exports are sold 'on consignment', prices received are converted to an f.o.b. basis.

Marketing Costs: These include freight, cost of containers, commission and other charges incurred in marketing.

Local Value of Production (i.e. gross production valued at place of production): This is gross value of production *less* marketing costs.

Value of Materials Used: These include power, power kerosene, petrol and other oils (as from 1958-59), seed used, fodder consumed by farm stock, fertilisers, dips and sprays and other selected costs of a similar nature.

Net Value of Production: This is local value of production *less* value of materials used in process of production. The net value of production exceeds the net return to producers since no deductions are made for depreciation, maintenance, interest on borrowed money, wages and a number of other production costs.

Unit Values: These have been calculated for principal rural products by dividing the total quantity produced into the total gross value of production for each product. They therefore represent weighted average 'prices' in all markets (including the farm itself where quantities are retained for farm use) for the product.

Government Subsidies and Bounties: Sudsidies and bounties paid by the State and Commonwealth Governments to primary industries, are in general, included in value of production.

Comparing or Combining Industries: Both gross and local values of primary production involve some duplication because they include the values of certain products as the final output of one primary industry and again as the raw material of another (e.g. hay from *agriculture* consumed by livestock under *pastoral* and *dairying*). Similarly, many materials consumed by primary industries are the products of secondary industries (e.g. fertilisers).

In calculating the Net Value of Production, the values of both primary and secondary products consumed by primary industries have been deducted and this process automatically eliminates duplication. It follows, therefore, that Net Value of Production should be used when comparing or combining values for individual primary industries and when comparing or combining values for primary and secondary industries.

1. LAND SETTLEMENT

LAND UTILISATION ON RURAL HOLDINGS—SUMMARY

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64	1964-65	1965-66

(a) See notes on page 4 explaining decline in number of rural holdings.
(b) Includes orchards and small fruits but excludes areas of clovers and grasses *cut* for hay, seed, silage, or green fodder.
(c) Excludes short or summer fallow.
(d) Includes areas cut for hay, seed, silage, or green fodder which are classified as "crops" in tables on other pages. Total area classified in this way is 147,209 acres.
(e) Area of holdings exceeds area of Local Government Area; where rural holding extends across a Local Government Area boundary the location of the homestead determines the Local Government Area to which the whole holding is allocated.

2. AGRICULTURAL

Notes: F, if shown, indicates total failures.
In addition to the small fruits shown above, 94,000 lb of blackberries were processed in factories during 1965-66.
(a) Less than half of the unit shown.

GRASS SEED PRODUCTION (a)

(Cwt)

Type of Grass Seed	1960–61	1961–62	1962–63	1963–64	1964–65	1965–66
Clover—White	261	217	484	412	1,449	381

SUMMARY OF LIVESTOCK

Cattle

Note on Collection of Cattle Statistics: Following an investigation into the adequacy of the wording and layout of the cattle section of the statistical form used for the 1962-63 census and preceding censuses of rural holdings, certain changes were made to the forms used for the census conducted at 31 March 1964.

Prior to 1964 farmers were asked to classify their herds either as 'beef' cattle or 'dairy' cattle. These two terms tended to confuse breed and purpose, and in those instances where vealer production was carried on in association with dairying, farmers were in doubt as to how to classify part or all of their herds.

On 31 March 1964 farmers were asked to classify their cattle according to the two main purposes for which kept: (i) milk production; and (ii) meat production, irrespective of breed and to report separately the number of cows and heifers kept for their own domestic milk supply. Consequently detailed statistics of cattle for 1964 are not comparable with those for earlier years. However, four broad groupings of cattle are generally comparable with earlier years and particulars are shown in the last table on this page.

For comparative purposes the full description of cattle as listed on farmers' census schedules for both 1963 and 1964 is shown below. The total number of each type of cattle in Tasmania at the 1963 and 1964 Census dates is also shown.

Comparison of Cattle Sections of Collection Form as used in 1963 and 1964

Cattle At 31 March 1963	$	Cattle At 31 March 1964	$
Dairy—Dairy Cows (in milk and dry)	141,255	Bulls Used or Intended for Service—	
Heifers, 1 year and over (for dairying)	40,045	Bulls (1 year and over)—Dairy Breeds	4,141
Calves (under 1 year)—Heifer calves	42,724	Beef Breeds	3,984
Other calves	9,539	Bull Calves (under 1 year)	4,195
Bulls, 1 year and over	4,521	Cows and Heifers Used or Intended for Production (for sale) of Milk and Cream—	
Total Number of Dairy Cattle	238,084	Cows—In Milk and Dry at 31 March	140,425
		Heifers (1 year and over)	39,928
Beef— Cows (including heifers), 1 year and over	88,923	Heifer Calves (under 1 year)	43,082
Calves, under 1 year	70,120	House Cows (in milk and dry) and Heifers (one year and over) being kept primarily for own milk supply	6,545
Bulls, 1 year and over	4,423	Other Cattle and Calves (not included above), i.e., Mainly for Meat Production—	
Other (including Speyed Cows, Bullocks, etc.)	42,053	Cows and Heifers (1 year and over)	89,292
		Calves (under 1 year) including Vealers	75,108
Total Number of Beef Cattle	205,519	Other (1 year and over), i.e., Steers, Bullocks, etc.	43,298
Total Number all Cattle (Dairy and Beef)	443,603	Total Cattle and Calves for all Purposes	449,998

1965-66 ..	65,092	6,592	16,206	87,890	(d) 148,452	(e) 578

(a) Prior to 1953-54 includes milk used for making butter and cheese on farms.
(b) Prior to 1953-54 excludes milk used for making butter and cheese on farms.
(c) Average annual yields are based on the estimated number of dairy cows which were in milk at any part of the year. (The mean of the number of dairy cows at 31 March of the current year and at 31 March of the previous year are taken for this purpose.) Averages are therefore, lower than for cows which were yielding during the greater part of the year. The figures given should be treated as an index rather than an actual average quantity of milk produced per dairy cow.
(d) "House" cows excluded as from 1963-64. See page 28.
(e) As a result of revised classifications of cattle adopted from 1963-64, the average annual yield per cow is not strictly comparable with the calculations made for previous years. See page 28.
r Revised.

(a) As from 1956-57 factory production includes production in certain establishments not defined as factories for statistical purposes.
(b) Year ended 31 March.
(c) Includes butter equivalent of butter oil.
(d) Not available.
(e) Excludes farm production.

(*a*) Not available for every year; this classification is carried out at irregular intervals.
(*b*) These classifications are not comparable with 1960 classifications due to change in wording of cattle section of farm census schedule as from 1964. See notes on pages 28 and 53.

CLASSIFICATION OF RURAL HOLDINGS BY SIZE AND TYPE OF ACTIVITY, 1965–66

The first attempt at classifying rural holdings according to type of activity on a uniform basis in all States was made in respect of the year 1959-60. A similar classification for 1965-66 has now been made and summarised details for Tasmania are shown in the table below.

Classifications of holdings according to principal characteristics (e.g. area of holding, number of sheep, pigs, etc.) have been carried out at irregular intervals over a long period of years and for 1965-66 these classifications were extracted simultaneously with the 'farm type' classifications. Examples of the size classifications will be found on pages 7 and 52 of this bulletin.

A separate publication entitled 'Classification of Rural Holdings by Size and Type of Activity, 1965-66' is being issued for each State and Australia as a whole in the same manner as for 1959-60, covering a wide range of cross classifications of farm types and farm characteristics. Copies of the publications will be available from the Tasmanian Office of the Bureau of Census and Statistics, Hobart, or from the Commonwealth Statistician, Canberra.

The separate publications will outline in some detail the method used to classify farms according to activity and explain why the classification is not strictly comparable with that used for 1959-60. Some of the most significant changes from 1959-60 to 1965-66 occur in the classification of holdings with cattle, due mainly to the changes of wording of the cattle section of the farm census schedule from 1963-64. These changes are explained on page 28 of this Bulletin.

Basically the method used to classify to farm types was the same as for 1959-60, i.e. if a single activity accounted for 50 per cent or more of the total estimated gross cash receipts at the farm, that activity determined the holding type. Where no single activity accounted for 50 per cent of the total gross receipts, the holdings were classified as 'multipurpose'. Principal exceptions to this general rule were holdings reporting sheep and cereal grains, and cattle (milk production) and pigs. In the former case, the holding was treated as a composite sheep-cereal grain type if the combined receipts obtained from these activities accounted for 75 per cent or more of the total gross receipts, and provided the gross receipts obtained from sheep were no more than 4 times and not less than a quarter of the gross receipts obtained from cereal grains. In the latter case, if the combined receipts obtained from cattle (milk production) and pigs represented 50 per cent or more of total gross receipts, the holding was classified as cattle (milk production).

Holdings for which the total farm value was less than $1,600 were treated as 'sub-commercial'.

HOLDINGS CLASSIFIED ACCORDING TO TYPE OF ACTIVITY, 1965–66

Type of Holding	Statistical Division								
	North Western	North Eastern	North Midland	Midland	South Eastern	Southern	Western	Balance (a)	Total

7. NON-RURAL

CLASSIFICATION OF FOREST AREAS AT 30 JUNE 1966

Classification	Crown Land	Private Land	Total
	acres	acres	acres
Total Forest Area—			
Exploitable (*a*)—Hardwood	2,653,100	1,124,900	3,778,000
Softwood	5,779	3,034	8,813
Mixed Wood	..	..	..
Total	2,658,879	1,127,934	3,786,813
Potentially Exploitable (*a*)—Hardwood	2,076,644	424,236	2,500,880
Softwood	17,846	6,068	23,914
Mixed Wood	..	..	..
Total	2,094,490	430,304	2,524,794
Other Areas Classified as Forest	944,256	516,864	1,461,120
Total Forest Area (Estimated)	5,697,625	2,075,102	7,772,727
Forest Area Under Reservation (*b*)—			
State Forest (land permanently dedicated to timber production)	2,434,463	..	2,434,463
Timber Reserves (land reserved for timber supply, including fuel)	248,009	..	248,009
Other Forested Reserves (*c*)	1,159,363	..	1,159,363
Total Forest Area Under Reservation	3,841,835	..	3,841,835
Net Area (*d*) of Plantations (*b*)—			
Softwoods	23,625	9,102	32,727
Hardwoods	917	..	917
Total	24,542	9,102	33,644

(*a*) These statistics not comparable with previous years. See page 5.
(*b*) Included in Total Forest Area above.
(*c*) All other forested reserves under Government or Semi-Government control, e.g. Flora, Fauna and Scenic Reserves, National Parks, etc.
(*d*) Excludes firebreaks and other areas not actually forested.

FOREST PRODUCTS—SUMMARY

Product	Unit	1961-62	1962-63	1963-64	1964-65	1965-66
Timber—						
Logs for Sawing, Peeling, Slicing or Pulping—						
Forest Hardwoods	'000 sup ft (*a*)	510,864	567,900	625,464	645,720	667,860
Indigenous Forest 'Pines'	'000 sup ft (*a*)	4,788	2,520	3,288	2,820	3,480
Plantation Grown 'Pines'	'000 sup ft (*a*)	11,503	13,764	20,400	20,952	25,380
Total Logs—Quantity	'000 sup ft (*a*)	527,160	584,184	629,152	669,492	696,708
Value	$'000	9,214	10,724	11,459	12,431	13,105
Hewn and Other Timber—Quantity (*b*)	'000 sup ft (*a*)	34,872	34,560	29,640	28,764	29,856
Value (*c*)	$'000	2,491	2,384	2,227	2,883	2,882
Other Forest Products—						
Tanning Bark	tons	217	300	207	187	45
Value of Other Forest Products	$'000	16	18	13	12	3
Total Value of All Forest Products	$'000	11,721	13,126	13,699	15,326	15,990

(*a*) Log measure is true volume, not hoppus.
(*b*) From Crown land only. Includes firewood. Production of hewn and other timber and firewood from private land is not available.
(*c*) Includes an estimate of the value of hewn and other timber and firewood taken from private land.

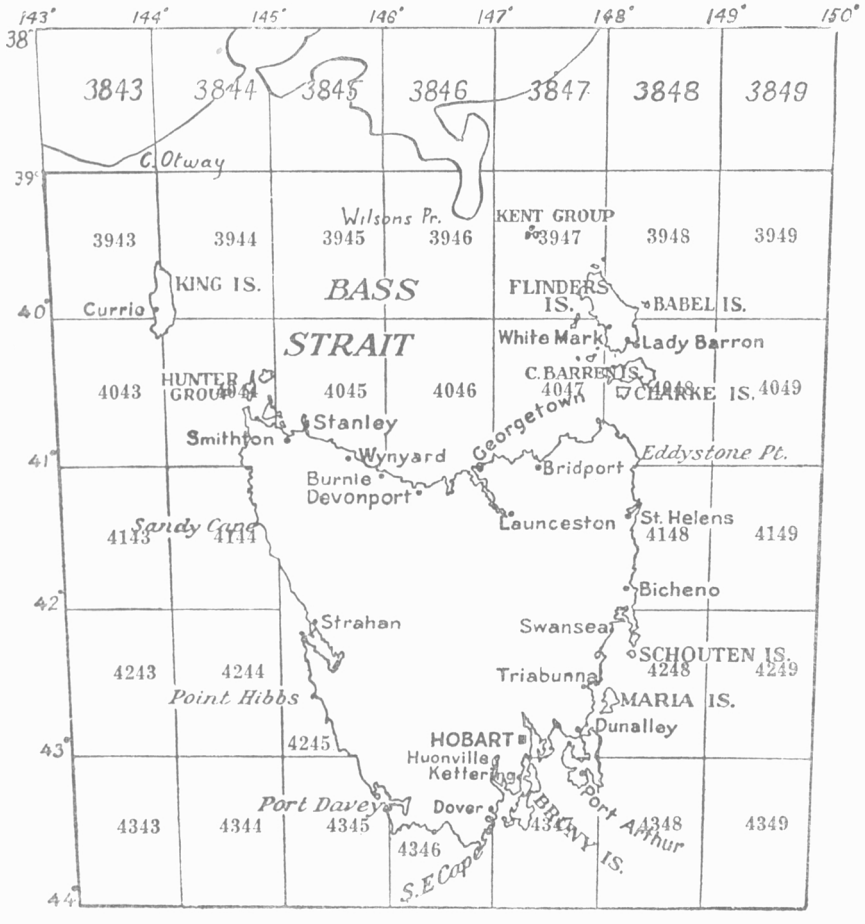

EMPLOYMENT IN THE FORESTRY DEPARTMENT AT 30 JUNE

Classification	1962	1963	1964	1965	1966
Professional Staff—					
Foresters	29	32	33	34	34
Others	3	3	6	7	11
Non-professional Field Staff	87	96	94	96	117
Clerical Staff	85	88	85	96	94
Extraction (*a*)	..	..	20	20	15
Milling (*b*)	..	..	..	..	..
Labour (*c*)	298	341	379	435	384
Total	502	560	617	688	655

(*a*) Felling and carting, etc. (*b*) Sawing, peeling, slicing or pulping. (*c*) Silvicultural works, forest roads, bridges, etc.

FISHERIES—BLOCK AND ESTUARY NUMBERS

BLOCK NUMBERS

ESTUARY NUMBERS

Estuary	*Number*
D'Entrecasteaux Channel ..	9601
Tamar River	9602
Oyster Bay	9603
Norfolk Bay (incl. Frederick Henry Bay and Pittwater)	9604
Port Sorell	9605
George Bay	9606
Macquarie Harbour	9607

NOTES

Information relating to sea fisheries is derived from (i) monthly catch and effort returns and (ii) annual boat registrations returns submitted to the Fisheries Division of the Department of Agriculture and processed by the Bureau of Census and Statistics.

Details shown relate to fish, crustaceans and molluscs *landed* at Tasmanian ports irrespective of the waters in which they were caught.

Catch is shown as actual landed weight whether 'in the round', 'gutted and gilled', 'gutted and headed', 'filleted', etc.

Quantity figures in the first table in some cases are slightly greater than those shown in subsequent tables. This is due to the late receival of a small number of fishermen's returns. This necessitated their exclusion from detailed quarterly classifications, which are processed mechanically. This does not, however, invalidate the relationships suggested by the tables.

FISHERIES—SUMMARY

Particulars	1963-64		1964-65		1965-66	
	Quantity	Value	Quantity	Value	Quantity	Value
Production—	'000 lb	$'000	'000 lb	$'000	'000 lb	$'000
Fish (*a*)—Barracouta (Snoek)	1,057	85	1,517	112	2,258	160

Production (*g*)	13,990	14,465	17,358	18,175	19,343	20,309
Value of Additions and Replacements to Fixed Assets—						
Land and Buildings	96	(*h*)	95	(*h*)	482	(*h*)
Plant and Machinery	431	(*h*)	392	(*h*)	5,120	(*h*)
Mine Development	74	(*h*)	44	(*h*)	99	(*h*)
Total	602	(*h*)	531	(*h*)	5,701	(*h*)

(*a*) Selling value at mine or quarry (i.e. exclusive of transport costs from mine or quarry to point of sale). Value added by reduction of ores, concentrates, etc. to metals is excluded. Such processes are classified as 'factory' and included in secondary industries statistics.
(*b*) Includes clays, limestone, etc.
(*c*) Details for those tin mines with production valued at less than $1,000 at point of sale are excluded from all items except Value of Output and Value of Production.
(*d*) Number employed on last full working day of year shown.
(*e*) Exclusive of drawings by working proprietors.
(*f*) Net amount after deduction of miners' purchases of explosives from employees.
(*g*) Value of output at mine or quarry, less total costs other than labour shown above. No allowance has been made for depreciation or costs of maintenance.
(*h*) Not available.

MINERALS AND CONSTRUCTION MATERIALS PRODUCED

Mineral	Unit of Quantity	1961	1962	1963	1964	1965

For notes see end of table on page 61.

MINERALS AND CONSTRUCTION MATERIALS PRODUCED (*continued*)

Mineral	Unit of Quantity	1961	1962	1963	1964	1965
Construction Materials (d)						
Dimension Stone	tons	279	1,208	2,177	6,089	1,351
Crushed and Broken Stone	tons	644,365	610,441	922,532	1,009,923	1,339,844
Gravel (*e*)	tons	604,473	589,157	914,351	1,235,147	1,240,234
Sand	tons	34,413	97,156	110,822	160,084	276,028
Other	tons	25,040	111,682	19,979	109,892	284,182

(*a*) Estimated
(*b*) Less than half the quantity unit shown.
(*c*) Excludes quantities used directly as a building or road material.
(*d*) Excludes quantities quarried by Government or Semi-Government authorities (e.g. H.E.C., P.W.D., etc.) but includes quantities quarried by Local Government authorities for road material.
(*e*) Mainly decomposed rock for road material.

SIZE CLASSIFICATION OF MINES AND QUARRIES ACCORDING TO AVERAGE NUMBER OF PERSONS EMPLOYED (a)

Year and Type of Mining	Mines or Quarries Employing									
	Less Than 4 Persons		From 4 to 20 Persons		From 21 to 200 Persons		Over 200 Persons		Total	
	Mines, etc.	Persons	Mines, etc.	Persons	Mines, etc.	Persons	Mines, etc.	Persons	Mines, etc.	Persons
1963—Metal Mining	(*c*) 21	35	3	15	6	374	3	1,684	(*c*) 33	2,108
Fuel Mining	3	8	6	72	1	145	..	..	10	225
All Mining and Quarrying (*b*)	(*c*) 98	190	49	357	11	622	3	1,684	(*c*) 161	2,853
1964—Metal Mining	(*c*) 24	43	3	25	6	391	3	1,697	(*c*) 36	2,156
Fuel Mining	2	5	4	49	1	76	..	..	7	130
All Mining and Quarrying (*b*)	(*c*) 132	264	28	227	11	578	3	1,697	(*c*) 174	2,766
1965—Metal Mining	(*c*) 21	32	5	36	5	419	3	1,707	(*c*) 34	2,194
Fuel Mining	2	3	3	26	1	52	..	..	6	81
All Mining and Quarrying (*b*)	(*c*) 138	248	33	251	10	586	3	1,707	(*c*) 184	2,792

(*a*) During the period worked; includes working proprietors.
(*b*) Includes also particulars of Non-metallic Mining and Construction Material Quarrying.
(*c*) Includes only those tin mines with production valued at $1,000 or more at point of sale.

AVERAGE DAILY PRICES OF REFINED METALS (a): AUSTRALIAN MARKETS

Year	Aluminium (*b*)	Copper (*c*)	Gold (*d*)	Lead (*e*)	Silver (*f*)	Tin (*g*)	Zinc (*h*)
	$ per ton	$ per ton	$ per fine oz	$ per ton	$ per fine oz	$ per ton	$ per ton
1959	542.0	624.0	31.25	200.0	0.82	2,115.5	211.1
1960	542.0	650.6	31.25	200.0	0.83	2,084.9	226.4
1961	542.0	613.4	31.25	198.7	0.84	2,335.5	205.8
1962	542.0	610.0	31.25	164.3	0.95	2,326.7	200.0
1963	510.9	610.0	31.25	169.2	1.15	2,357.9	218.5
1964	502.0	717.4	31.25	239.3	1.17	3,194.0	288.9
1965	516.2	985.1	31.25	281.1	1.16	3,628.9	286.0

(*a*) Where a daily price does not actually exist for a commodity, daily prices have been imputed from price data which is available.
(*b*) Refined aluminium, 99.5% domestic, 1–20K ingots, c.i.f. capital cities.
(*c*) Ex-smelter Port Kembla.
(*d*) Reserve Bank official price.
(*e*) Refined soft pig lead, f.o.b. Port Pirie.
(*f*) Refined silver spot, London market.
(*g*) Refined tin, domestic, 5 ton lots, ex-works or delivered buyer's premises.
(*h*) Zinc, good ordinary brand (g.o.b.) grade, f.o.r. Cockle Creek.

(*a*) Includes government subsidies. (*b*) Transport costs only. (*c*) Includes cost of repairs, timber, explosives and other expendable stores used in the Mining and Quarrying Industry
(*d*) Excludes depreciation and maintenance costs. (*e*) Local values.

DEFINITIONS AND EXPLANATORY NOTES

PRIMARY INDUSTRIES: The following are definitions of the terms used:

GROSS VALUE OF PRODUCTION: This is the value placed on recorded production at the wholesale prices realised in the principal markets. (In cases where primary products are consumed locally, or where they become raw material for a secondary industry, these points are presumed to be the principal markets.)

MARKETING COSTS: These include freight, cost of containers, commission and other charges incurred in marketing.

LOCAL VALUE OF PRODUCTION (i.e. gross production valued at place of production):—This is ascertained by deducting Marketing Costs from Gross Value of Production.

VALUE OF MATERIALS USED IN PROCESS OF PRODUCTION: These include power, power kerosene, petrol and other oils, seed used, fodder consumed by farm stock, fertilisers, dips and sprays, and other selected costs of a similar nature. No allowance for power, power kerosene, petrol and other oils has been made for the years 1942–43 to 1957–58.

NET VALUE OF PRODUCTION: This is ascertained by deducting the Value of Materials Used in Process of Production from the Local Value of Production. No deductions have been made for depreciation or certain maintenance charges as particulars are not available.

GOVERNMENT SUBSIDIES AND BOUNTIES: Subsidies and bounties paid by the State and Commonwealth Governments to primary industries are, in general, included in value of production.

Gross and Local Values of primary production involve some duplication as they include the products of certain primary industries which are consumed as raw materials by other industries in the group (i.e. hay consumed by livestock). Furthermore, many of the materials consumed by primary industries are the products of secondary industry. However, duplication has been eliminated in calculating the Net Value of primary production by deducting the value of both primary and secondary products consumed by primary industries. Therefore, Net Value of primary production should be used when comparing or combining values for primary industries with those for secondary industries.

(a) No deduction made for the years 1948-49 to 1957-58 inclusive for costs of power, power kerosene, petrol and other oils.
(b) Profits arising from the 1939-45 War-time Wool Disposals Plan have been excluded both from years in which the wool was produced and years in which payment to woolgrowers was made.
(c) Deduction made for cost of power, fuel and light used as from 1958-59.
(d) Local values.
(e) Gross values *excluding* Quarrying prior to 1952-53.

AVERAGE UNIT GROSS VALUE OF CROPS—TASMANIA

NOTE: *Unit Values* have been calculated for principal agricultural products by dividing the total quantity produced into the total gross value of production for each product. They therefore represent weighted average 'prices' in all markets (including the farm itself where quantities are retained for farm use) for the product.

SPECIAL INSTRUCTIONS ON CROPS

Season. Generally, all crops grown in the year from 1st April to 31st March are to be included but some crops at 31st March will be practically matured but not yet harvested; in the case of such crops, please estimate probable yield and include it in the total. (Special collections will be made later in the case of orchard fruit and potato yields.)

Total Production. Should include all crops whether sold directly, delivered to marketing boards, retained for seed, consumed or stored on the holding or disposed of by gift, barter or delivery to the holder of a lien over the crop.

Crops for Grain or Hay. A crop harvested for grain or hay should *not* be entered again as a green fodder crop.

Failure of Crop. (1) If the failure is total, show area sown and write "F" in lieu of production figure; if failure is partial, show actual production figure. If a crop originally intended for grain was subsequently fed off entirely, still show the area under grain and not under green fodder.

(2) Crops ploughed in or dug in because they could not be marketed should be included as failures. However, green crops grown for ploughing in as green manure should be included under "All Other Crops," showing area only.

Double Cropping. (1) If two crops are grown on the same area at different times during the year, such area must be included twice in the area sown column.

(2) If two crops are grown together at the same time on the same area, then the area should be counted once only and apportioned between the two crops according to their relative importance.

(3) In the case of crops like lucerne which may be cut more than once, include the area once only but add all mowings to get the production figure.

LIVESTOCK

Please record all livestock belonging to the holding on 31st March, including those owned by you, share-farmers or members of the family, as well as those on agistment elsewhere.

13(a). SMALL FRUITS Plants of Bearing Age

(Show production in lb., not cwt. or tons).

(b). SMALL FRUITS Young Plants Not Bearing

All Wool Clipped from Lambs	243		
Crutchings, &c.	244	XXXXXX	
Dead Wool	245	XXXXXX	
TOTAL	246	XXXXXX	

30. STOCK SLAUGHTERED

ON FARM FOR HUMAN CONSUMPTION DURING THE YEAR ENDED 31st MARCH, 1966.

Calves	247
Other Cattle	248
Sheep	249
Lambs (exclude unmarked lambs)	250
Pigs (include those made into bacon, &c.)	251

31. STOCK DIED

FROM DROUGHT AND OTHER CAUSES, YEAR ENDED 31st MARCH, 1966.

Cattle	252
Sheep	253
Lambs (exclude unmarked lambs)	254
Pigs (exclude suckers)	255

NOTES.—Seasonal Conditions, etc.: Brief comments would be appreciated on such things as seasonal conditions, crop failures, etc., or any unusual variations since the previous year in crops, livestock, &c.

METEOROLOGY

(Source: Bureau of Meteorology, Regional Office, Hobart, from which further detailed information may be obtained on application.)

SUMMARY OF METEOROLOGICAL CONDITIONS, 1966

The greater part of the State again registered below normal rainfall during the year, the highest deficiencies being in the west coast mountain region, and in the north-east highlands, where totals were approximately eighty per cent of normal. The only areas to record above normal figures were the southern half of King Island, the extreme north-west tip and a large portion of the south-east extending from Tasman Peninsula north-west to the Central Plateau. Despite the deficiency on the west coast, annual totals were highest in that district, and ranged from fifty-five inches on the coast to more than one hundred and ten inches inland. The driest areas during the year were a portion of the Upper Derwent Valley surrounding Hamilton, and around Ross in the central midlands.

Mean temperatures during the first five months were generally mild, although parts of the east and south-east coast were below normal during February, while inland areas and parts of the central north were below during April. A below-normal pattern was established in June which continued until the second week of September. A period of mild weather commenced in the third week of September and continued until the end of November. This mild period, together with good general rainfall during September, was a contributing factor to the excellent spring growth. During December, mean temperatures reverted to below normal throughout the State.

Gale force west to south-west winds up to 82 mph on the 28 June and a tornadic squall at Beauty Point in the Tamar Valley on 21 August caused relatively light damage to crops and property.

Falls of snow were heavy and widespread on 4 and 5 September, but were confined mainly to the southern half of the State. Snow was reported from coastal areas of the east coast.

TIMES OF PLANTING AND HARVESTING PRINCIPAL CROPS, AND OF SHEARING, LAMBING, etc., TASMANIA

Crop	Time of Planting	Harvesting
Cereals—		
Barley	September to November	February to March
Oats	March to October	November to March
Wheat	May to September	January to February
Vegetables—		
Beans, French and Runner	September to October	February to March
Peas, Green	August to October	December to February
Potatoes—Early	June to August	December to February
Late	September to November	February to October
Tomatoes	October to November	February to April
Other Crops—		
Hops	..	February to April
Field Peas	July to September	January to April
Fruit—		
Apples	..	February to May
Apricots	..	January to February
Peaches	..	January to February
Pears	..	February to April
Plums	..	January to February
Raspberries	..	December to January
Currants	..	January to February
Gooseberries	..	November to December
Strawberries	..	November to January

Shearing	October to December
Lambing—	
Spring	August to October
Autumn and Winter	March to July
Slaughtering for Export—	
Lambs (*a*)	November to March

(*a*) The period shown refers to that in which the seasonal activity is more pronounced.

NOTE: Variations from the above periods occur owing to variety of seed, district, seasonal conditions and zoning of shearing.

GENERAL NOTES

Values in this publication are expressed in dollars ($) and/or cents (c) Australian.

Where figures have been rounded in this publication any discrepancies between totals and sums of components are due to rounding.

1. MANUFACTURING STATISTICS

SCOPE

For the purposes of the Statistics included in the first part of this bulletin a 'factory' is defined as an establishment either where powere (other than manual) is used or in which four or more persons are employed in any manufacturing process. *It should be noted that details relating to small establishments not classified for statistical purposes as factories are not included in the figures shown herein.*

The Statistics relate to: Number and size of factories; number of persons employed, in various categories; salaries and wages paid; book value of land, buildings, plant and machinery (not capital invested); value of materials, containers, repairs and replacements, power, fuel and light (including water and lubricating oil) used in factories; value of output; value of production; quantities and values of fuel used; quantities and values of principal materials used and articles produced; value of additions and replacements to, and depreciation allowed on, land and buildings, and plant and machinery; rated horse-power of engines ordinarily in use and those in reserve or idle.

The returns from which these statistics are compiled are obtained from manufacturers; they are not intended to show a complete record of the income or expenditure of factories nor to show the profits or losses of factories collectively or individually. A specimen copy of the factory census form is shown on pages 47 and 48 and a copy of the instructions issued to informants is included on pages 49 and 50.

The period covered by the statistics in this Bulletin, is, in the main, the twelve months ended 30 June. In cases where some other accounting period is used it is permissible to complete the census schedule for that accounting period. These cases, however, are comparatively few and their inclusion in no way impairs the comparability of the statistics in the year under review or from year to year.

SOURCE

The information is compiled annually from returns received in respect of approximately 1,800 factories operating throughout the State.

DEFINITIONS

Average Number of Persons Employed: All persons employed in the *manufacturing* activities of a factory are counted as factory employees. The figures relating to employment, therefore, *exclude* all those engaged in selling and distribution, such as salesmen, travellers, collectors, carters engaged solely on outward delivery of manufactured goods, and retailing storemen. The figures, however, do include proprietors who work in their own businesses, as well as 'out-workers'.

The average number of persons employed is quoted on two different bases: the average *during the period of operation* and the average *over the whole year*. Of these, the former is simply the aggregate of the average number of persons employed in each factory during its period of operation (whether the whole or only part of the year). This average is used only in respect of details relating to classification according to number of persons employed. The latter, which is used in all other instances, is calculated by reducing the average number working in the factories (irrespective of period of operation) to the equivalent number working for a full year.

Working Proprietors are included in all employment figures other than those relating to monthly employment and age dissections, but salaries and wages paid in all cases exclude drawings by working proprietors.

Value of Output: The value of factory output is the value of the goods manufactured or their value after passing through the particular process of manufacture and includes the amount received for repair work, work done on commission and receipts for other factory work. The basis of valuation of the output is the selling value of the goods at the factory, exclusive of all delivery costs and charges and excise duties, but inclusive of bounty and subsidy payments to the manufacturer of the finished article.

Value of Production: The value of production is the value added to raw materials by the process of manufacture. It is calculated by deducting from the value of factory output the value (at the factory) of the materials used, containers and packing, power, fuel and light used, tools replaced, and materials used in repairs to plant (but not depreciation charges).

In the process of manufacture, many goods are treated in several industries, the output of one becoming the raw materials of another, so that such commodities are counted more than once in the aggregate value of output and of raw materials. Examples are flour passing from the mills to bakeries, metals from the smelters which become raw materials in establishments concerned in the production of metal goods, and timber from the sawmills used in furniture factories and in joinery. On the other hand, the aggregate value of production is assessed without duplication, the value added by each industry being taken into account once only. For this reason the value of production, and not the value of the output, is used as a measure of activity in the manufacturing industries as a whole or for comparisons between industries.

There are many miscellaneous expenses, such as maintenance of buildings, etc., depreciation, workers' compensation insurance, other insurances, pay-roll tax, income tax, advertising, interest on borrowed money, bad debts and many other sundry charges, which are not specified on the factory form and therefore not taken into account in determining value of production. Consequently it must not be inferred that when wages and salaries are deducted from the value of the production, the whole of the surplus is available for interest and profits.

Rated Horse-power of Engines Used: Statistics of power used in factories other than Central Electric Stations relate to the 'rated horse-power' of engines ordinarily in use and of engines in reserve or idle, omitting obsolete engines. In the case of Central Electric Stations, the figures refer to the 'rated capacity' of engines and generators installed.

CLASSIFICATION OF FACTORIES

On pages 6 and 7 is the complete factory classification list which, apart from very minor amendments, has been used uniformly in all States since 1945-46. The statistical tables on subsequent pages, where the titles of any sub-classes are not shown, indicate that there are no factories in these sub-classes in Tasmania. Also to conserve space, abbreviated titles have been used for some sub-classes.

Statistics for some sub-classes are not available for separate publication because of the limited number of factories in the sub-class; also in some instances publication of State details is not possible because of considerations relating to the publication of Australian totals. However, all suppressed sub-class details are included in the appropriate class totals.

FACTORY CLASSIFICATION—COMPLETE LIST OF CLASSES AND SUB-CLASSES

Class I: Treatment of Non-Metalliferous Mine and Quarry Products

1. Coke Works
2. Briquetting and Pulverised Coal
3. Carbide
4. Lime, Plaster of Paris, Asphalt
5. Fibrous Plaster and Products
6. Marble, Slate, etc.
7. Cement, Portland
8. Asbestos Cement Sheets and Mouldings
9. Other Cement Goods
10. Other

Class II: Bricks, Pottery, Glass, etc.

1. Bricks and Tiles
2. Earthenware, China, Porcelain, Terra Cotta
3. Glass (other than Bottles)
4. Glass Bottles
5. Other

Class III: Chemicals, Dyes, Explosives, Paints, Oils, Grease

1. Industrial and Heavy Chemicals and Acids
2. Pharmaceutical and Toilet Preparations
3. Explosives (including Fireworks)
4. Whitelead, Paints, Varnishes
5. Oils, Vegetable
6. Oils, Mineral
7. Oils, Animal
8. Boiling Down, Tallow Refining
9. Soap and Candles
10. Chemical Fertilisers
11. Inks, Polishes, etc.
12. Matches
13. Other

Class IV: Industrial Metals, Machines, Conveyances

1. Smelting, Converting, Refining, Rolling of Iron and Steel
2. Foundries (Ferrous)
3. Plant, Equipment and Machinery, including Machine Tools
4. Other Engineering
5. Extracting and Refining of other Metals; Alloys
6. Electrical Machinery, Cables and Apparatus

Construction and Repair of Vehicles:

Tramcars and Railway Rolling Stock:

7. Government and Municipal
8. Other

Motor Vehicles:

9. Construction and Assembly
10. Repairs
11. Motor Bodies
12. Horse Drawn Vehicles
13. Motor Accessories
14. Aircraft
15. Cycles, Foot and Hand Driven, and Accessories
16. Other

Ship and Boat Building and Repairing, Marine Engineering:

17. Government
18. Other
19. Cutlery and Small Hand Tools
20. Agricultural Machines and Implements

Non-Ferrous Metals:

21. Rolling and Extrusion
22. Founding, Casting, etc.

24. Sheet Metal Working, Pressing and Stamping
25. Pipes, Tubes and Fittings: Ferrous
26. Wire and Wire Working (including Nails)
27. Stoves, Ovens and Ranges
28. Gas Fittings and Meters
29. Lead Mills
30. Sewing Machines
31. Arms, Ammunition (excluding Explosives)
32. Wireless and Amplifying Apparatus
33. Other Metal Works

Class V: Precious Metals, Jewellery, Plate

1. Jewellery
2. Watches and Clocks (including Repairs)
3. Electroplating (Gold, Silver, Chromium, etc.)

Class VI: Textiles and Textile Goods (excluding Clothing other than Knitted)

1. Cotton Ginning
2. Cotton Spinning and Weaving
3. Wool: Carding, Spinning, Weaving
4. Hosiery and Other Knitted Goods
5. Silk, Natural
6. Rayon, Nylon and Other Synthetic Fibres
7. Flax Mills
8. Rope and Cordage
9. Canvas Goods, Tents, Tarpaulins, etc.
10. Bags and Sacks
11. Textile Dyeing, Printing and Finishing
12. Other

Class VII: Skins and Leather (not Clothing or Footwear)

Furs, Skins, Leather:

1. Furriers and Fur Dressing
2. Woolscouring and Fellmongery
3. Tanning, Currying and Leather Dressing

Saddlery, Harness, Bags, Trunks and Other Goods of Leather and Leather Substitutes:

4. Saddlery, Harness and Whips
5. Machine Belting (Leather or Other)
6. Bags, Trunks and Other Goods of Leather, and Leather Substitutes

Class VIII: Clothing (except Knitted)

1. Tailoring and Ready-made Clothing
2. Waterproof and Oilskin Clothing
3. Dressmaking, Hemstitching
4. Millinery
5. Shirts, Collars, Underclothing
6. Foundation Garments
7. Handkerchiefs, Ties, Scarves
8. Hats and Caps
9. Gloves
10. Boots and Shoes (not Rubber)
11. Boot and Shoe Repairing
12. Boot and Shoe Accessories
13. Umbrellas and Walking Sticks
14. Dyeworks and Cleaning (including Renovating and Repairing)
15. Other

Class IX: Food, Drink and Tobacco

1. Flour Milling
2. Cereal Foods and Starch
3. Animal and Bird Foods
4. Chaffcutting and Cornerushing
5. Bakeries (including Cakes and Pastry)
6. Biscuits
7. Sugar Mills
8. Sugar Refining
9. Confectionery (including Chocolate and Icing Sugar)
10. Jam, Fruit and Vegetable Canning
11. Pickles, Sauces, Vinegar
12. Bacon Curing
13. Butter Factories
14. Cheese Factories
15. Condensed and Dried Milk Factories
16. Margarine
17. Meat and Fish Preserving
18. Condiments, Coffee, Spices
19. Ice and Refrigerating
20. Salt
21. Aerated Waters, Cordials, etc.
22. Breweries
23. Distilleries
24. Winemaking
25. Cider and Perry
26. Malting
27. Bottling
28. Tobacco, Cigars, Cigarettes, Snuff
29. Dehydrated Fruit and Vegetables
30. Ice Cream
31. Sausage Skins
32. Arrowroot
33. Other

FACTORY CLASSIFICATION—COMPLETE LIST OF CLASSES AND SUB-CLASSES—*Continued*

Class X: Sawmills, Joinery Works, Boxes and Cases, Woodturning and Woodcarving

1. Sawmills
2. Plywood Mills (including Veneers)
3. Bark Mills
4. Joinery
5. Cooperage
6. Boxes and Cases
7. Woodturning, Woodcarving, etc.
8. Basketware and Wickerware, (including Seagrass and Bamboo Furniture)
9. Perambulators (including Pushers and Strollers)
10. Wall and Ceiling Boards (not Plaster or Cement)
11. Other

Class XI: Furniture of Wood, Bedding, etc.

1. Cabinet and Furniture Making (including Billiard Tables and Upholstery)
2. Bedding and Mattresses (not Wire)
3. Furnishing Drapery
4. Picture Frames
5. Blinds

Class XII: Paper, Stationery, Printing, Bookbinding, etc.

1. Newspapers and Periodicals
2. Printing, Government
3. Printing, General, including Bookbinding
4. Manufactured Stationery
5. Stereotyping, Electrotyping
6. Process and Photo Engraving
7. Cardboard Boxes, Cartons and Containers
8. Paper Bags
9. Paper Making
10. Pencils, Penholders, Chalks, Crayons
11. Other

Class XIII: Rubber

1. Rubber Goods (including Tyres Made)
2. Tyre Retreading and Repairing

Class XIV: Musical Instruments

1. Gramophones and Gramophone Records
2. Pianos, Piano Players, Organs
3. Other

Class XV: Miscellaneous Products

1. Linoleum, Leathercloth and Oilcloth, etc.
2. Bone, Horn, Ivory and Shell
3. Plastic Moulding and Products
4. Brooms and Brushes
5. Optical Instruments and Appliances
6. Surgical and Other Scientific Instruments and Appliances
7. Photographic Material (including Developing and Printing)
8. Toys, Games and Sports Requisites
9. Artificial Flowers
10. Other

Class XVI: Heat, Light and Power

Electric Light and Power:

1. Government
2. Local Authority
3. Companies

Gasworks:

4. Government
5. Local Authority
6. Companies

SALARIES AND WAGES PAID (a) ACCORDING TO CLASS OF INDUSTRY—SUMMARY

($'000)

Class of Industry	1961–62	1962–63	1963–64	1964–65	1965–66
I. Treatment of Non-Metalliferous Mine and Quarry Products	1,651	1,868	1,940	2,086	2,169
II. Bricks, Pottery, Glass, etc.	852	823	810	927	908
III. Chemicals, Paints, Oils, etc.	2,389	2,505	2,680	2,957	3,252
IV. Industrial Metals, Machines, etc.	21,750	23,299	25,513	27,129	29,877
V. Precious Metals, Jewellery, Plate	61	59	66	66	74
VI. Textiles and Textile Goods (excl. Clothing other than Knitted)	5,373	5,791	6,156	7,123	7,542
VII. Skins and Leather (not Clothing or Footwear)	132	130	100	105	112
VIII. Clothing (except Knitted)	1,137	962	975	1,067	1,115
IX. Food, Drink and Tobacco	9,528	9,670	10,174	10,928	11,653
X. Sawmills, Joinery, etc.	6,481	6,850	7,660	8,466	9,363
XI. Furniture of Wood, Bedding, etc.	680	732	839	896	949
XII. Paper, Stationery, Printing, etc.	9,920	10,669	12,096	13,054	14,055
XIII. Rubber	267	247	249	278	311
XV. Miscellaneous Products	212	195	183	224	275
Total Classes I to XV	60,432	63,802	69,442	75,306	81,655
XVI. Heat, Light and Power	1,008	1,035	1,140	1,209	1,307
Total All Classes	61,440	64,837	70,582	76,515	82,963

(a) Excludes amounts drawn by working proprietors.

1965-66 ..	658	10,185	..	319,187	330,030	689	49,419

(*a*) Excludes central electric stations.
(*b*) Excludes motors driven by electricity of own generation.
(*c*) Includes all prime movers and motors.

CENTRAL ELECTRIC STATIONS: GENERATORS INSTALLED—SUMMARY

Description	1961-62	1962-63	1963-64	1964-65	1965-66
Kilowatt Capacity—					
Total Installed .. .. .. kW	604,530	628,530	767,990	818,990	819,176
Effective Capacity .. .. .. kW	601,700	625,700	765,160	816,160	816,290
Maximum Load .. .. .. kW	467,279	560,619	576,604	597,044	634,338
Horse-power Equivalent—					
Total Installed .. .. .. hp	851,434	884,934	1,078,034	1,149,634	1,150,874
Effective Capacity .. .. .. hp	846,414	879,914	1,072,970	1,144,570	1,145,740
Maximum Load .. .. .. hp	648,621	778,276	800,477	828,870	880,668

GOVERNMENT AND NON-GOVERNMENT FACTORIES, 1965–66

Particulars	Government Factories	Non-Government Factories	Total
Number of Factories	80	1,712	1,792
Average Employment (*a*)—			
Males	2,592	25,449	28,041
Females	52	6,222	6,274
Salaries and Wages Paid (*b*)—			
Males .. .. $'000	6,658	67,275	73,932
Females .. .. $'000	75	8,956	9,030
Cost of Materials Used .. .. $'000	5,873	182,805	188,678
Other Specified Costs of Production (*c*) .. .. $'000	980	39,316	40,296
Value of Output .. .. $'000	29,657	374,924	404,581
Value of Production (*d*) .. .. $'000	22,804	152,802	175,606
Value at 30 June of Land and Buildings (*e*) .. .. $'000	(*f*) 131,941	79,982	211,923
Value at 30 June of Plant and Machinery (*e*) .. $'000	48,222	110,450	158,672

(*a*) Average *whole* year, including working proprietors. See explanatory note, page 5.
(*b*) Excludes amounts drawn by working proprietors.
(*c*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*d*) Value of output less specified costs of production, other than labour.
(*e*) Includes estimated value of *rented* land, buildings, plant and machinery.
(*f*) Includes value of dams, flumes, earth works, etc., ancillary to production of electricity from water.

NUMBER OF FACTORIES IN EACH CLASS OF INDUSTRY ACCORDING TO LOCAL GOVERNMENT AREAS AND STATISTICAL DIVISIONS, 1965–66

Local Government Area and Statistical Division	Class of Industry															
	I. Treatment of Non-Metalliferous Mine and Quarry Products	II. Bricks, Pottery, Glass, etc.	III. Chemicals, Paints, Oils, etc.	IV. Industrial Metals, Machines, etc.	V. Precious Metals, Jewellery, Plate	VI. Textiles and Textile Goods (not Dress)	VII. Skins and Leather (not Clothing or Footwear)	VIII. Clothing (except Knitted)	IX. Food, Drink and Tobacco	X. (*a*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*b*) Excludes amounts drawn by working proprietors.
(*c*) Includes cost of water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*d*) Value of output less specified costs of production, other than labour.
(*e*) Includes estimated value for *rented* land, buildings, plant and machinery.
(*f*) Suburbs comprise (i) Parts of Kingborough Municipality (Blackmans Bay, Kingston, Taroona, etc.).
(ii) Parts of Clarence Municipality (Bellerive, Howrah, Warrane, Lindisfarne, Risdon Vale, etc.).
(iii) All Glenorchy City.
(*g*) Suburbs comprise (i) Parts of St. Leonards Municipality (St. Leonards Town, Youngtown, Waverley, Punchbowl, Norwood, Ravenswood, Elphin, etc.).
(ii) Parts of Lilydale Municipality (Newnham, Rocherlea, Mayfield, Vermont, etc.).
(iii) Parts of Beaconsfield Municipality (Riverside, Tenalga, Cormiston, Trevallyn, etc.).
(iv) Parts of Westbury Municipality (Prospect Vale, etc.).
(*h*) Not available for publication.
(*i*) Less than $500.

(*a*) Excludes statistics of plywood mills except for details of logs sawn and sawn timber produced.
(*b*) Average *whole* year, including working proprietors. Excludes men engaged in felling, etc., and carting logs to mill.
(*c*) Excludes amounts drawn by working proprietors and amounts paid to workers engaged in felling, etc., and carting logs to mill.
(*d*) Represents principally value of logs sawn, peeled or sliced, but also includes value of minor items such as nails, tie-wire, etc., used.
(*e*) Includes cost of water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*f*) Value of sawn, peeled and sliced timber produced (shown in last column) plus added value due to re-sawing, kiln drying, dressing operations and making up into fruit cases, etc., where this is actually performed in the mills.
(*g*) Value of output less *specified* costs of production other than labour.
(*h*) Includes estimated value for *rented* land, buildings, plant and machinery.
(*i*) Includes sawn timber equivalent of peeled and sliced timber. The value of all timber produced during 1965–66 (at the rough sawn stage) is estimated at $16,238,960.
(*j*) Not available for publication.
(*k*) Logs sawn—Hardwoods 350,402,000 sup ft; Softwoods 10,064,000 sup ft.

(*a*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*b*) Excludes amounts drawn by working proprietors.
(*c*) Includes cost of water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*d*) Value of output less specified costs of production, other than labour.
(*e*) Includes estimated value for *rented* land, buildings, plant and machinery.

BRICKS AND TILES (*a*)

(Class II, Sub-Class 1)

Item		1961-62	1962-63	1963-64	1964-65	1965-66
Number of Factories		12	13	9	11	11
Motors and Engines Ordinarily in Use	hp	2,075	2,258	2,071	2,458	2,907
Average Number of Workers (*d*)		266	273	222	237	215
Salaries and Wages Paid (*e*)	$'000	581	585	505	584	558
Cost of Materials Used	$'000	183	137	147	173	145
Other Specified Costs of Production (*f*)	$'000	319	315	320	331	322
Value of Output	$'000	1,363	1,292	1,305	1,492	1,420
Value of Production (*g*)	$'000	861	840	838	987	953
Value of Land and Buildings (*h*)	$'000	308	391	506	596	664
Value of Plant and Machinery (*h*)	$'000	576	481	460	526	576

(*a*) Excludes *cement* bricks and tiles. Years prior to 1963-64 include statistics of 'Earthenware, China, etc.'.
For other notes—See below last table on this page.

EXTRACTING AND REFINING OF (NON-FERROUS) METALS (*b*)

(Class IV, Sub-Class 5)

Item		1961-62	1962-63	1963-64	1964-65	1965-66
Number of Factories		4	5	4	4	4
Motors and Engines Ordinarily in Use	hp	48,981	45,548	47,453	47,771	46,230
Average Number of Workers (*d*)		3,453	3,602	3,444	3,394	3,404
Salaries and Wages Paid (*e*)	$'000	9,409	10,434	10,527	11,087	12,031
Cost of Materials Used	$'000	24,515	*r* 19,491	32,892	42,871	42,793
Other Specified Costs of Production (*f*)	$'000	7,295	7,788	9,280	11,279	11,463
Value of Output	$'000	50,740	*r* 53,036	66,238	81,336	83,049
Value of Production (*g*)	$'000	18,930	24,757	24,065	27,185	28,792
Value of Land and Buildings (*h*)	$'000	10,564	12,313	12,652	12,902	12,933
Value of Plant and Machinery (*h*)	$'000	23,275	33,925	32,761	34,440	34,317

(*b*) Years prior to 1963-64 include statistics of 'Rolling and Extrusion of Non-ferrous Metals'.
For other notes—See below last table on this page.

TRAMCARS AND RAILWAY ROLLING STOCK—GOVERNMENT (*c*)

(Class IV, Sub-Class 7)

Item		1961-62	1962-63	1963-64	1964-65	1965-66
Number of Factories		5	5	4	4	4
Motors and Engines Ordinarily in Use	hp	3,445	3,585	3,101	3,101	3,106
Average Number of Workers (*d*)		734	698	588	575	592
Salaries and Wages Paid (*e*)	$'000	1,363	1,342	1,227	1,233	1,289
Cost of Materials Used	$'000	850	543	407	424	574
Other Specified Costs of Production (*f*)	$'000	133	129	70	65	68
Value of Output	$'000	2,761	2,363	1,964	2,067	2,280
Value of Production (*g*)	$'000	1,777	1,691	1,487	1,577	1,638
Value of Land and Buildings (*h*)	$'000	1,389	1,397	1,386	1,386	1,386
Value of Plant and Machinery (*h*)	$'000	705	703	641	673	722

(*c*) Years prior to 1963-64 include statistics of 'Non-Government Railways'.
For other notes—See below last table on this page.

MOTOR VEHICLE REPAIRS

(Class IV, Sub-Class 10)

Item		1961-62	1962-63	1963-64	1964-65	1965-66
Number of Factories		331	333	335	345	357
Motors and Engines Ordinarily in Use	hp	2,319	2,404	2,293	2,422	2,642
Average Number of Workers (*d*)		1,824	1,908	1,967	2,012	2,078
Salaries and Wages Paid (*e*)	$'000	2,997	3,116	3,470	3,811	4,018
Cost of Materials Used	$'000	3,363	3,329	3,714	3,932	4,216
Other Specified Costs of Production (*f*)	$'000	165	188	184	214	236
Value of Output	$'000	8,365	8,517	9,593	10,352	10,845
Value of Production (*g*)	$'000	4,837	5,000	5,695	6,206	6,392
Value of Land and Buildings (*h*)	$'000	4,486	4,718	5,367	5,751	5,905
Value of Plant and Machinery (*h*)	$'000	871	897	900	912	867

(*d*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*e*) Excludes amounts drawn by working proprietors.
(*f*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*g*) Value of output less specified costs of production, other than labour.
(*h*) At 30 June. Includes estimated value for *rented* land, buildings, plant and machinery.
r Revised

FOUNDING, CASTING, ETC. (NON-FERROUS)

(Class IV, Sub-Class 22)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		8	8	8	8	8
Motors and Engines Ordinarily in Use	hp	293	308	355	360	405
Average Number of Workers (*b*)		119	120	139	143	145
Salaries and Wages Paid (*c*)	$'000	214	223	254	275	292
Cost of Materials Used	$'000	174	188	261	341	395
Other Specified Costs of Production (*d*)	$'000	23	24	31	34	41
Value of Output	$'000	499	524	650	751	844
Value of Production (*e*)	$'000	302	312	358	377	409
Value of Land and Buildings (*f*)	$'000	125	129	135	136	146
Value of Plant and Machinery (*f*)	$'000	64	74	93	99	122

For notes—See below last table on this page.

SHEET METAL WORKING, PRESSING AND STAMPING

(Class IV, Sub-Class 24)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		31	31	30	34	33
Motors and Engines Ordinarily in Use	hp	758	778	793	823	880
Average Number of Workers (*b*)		335	316	320	336	405
Salaries and Wages Paid (*c*)	$'000	609	567	595	677	814
Cost of Materials Used	$'000	2,152	1,865	2,044	2,224	2,366
Other Specified Costs of Production (*d*)	$'000	65	70	78	86	83
Value of Output	$'000	3,443	3,204	3,571	3,947	4,269
Value of Production (*e*)	$'000	1,227	1,270	1,449	1,636	1,821
Value of Land and Buildings (*f*)	$'000	802	773	710	869	839
Value of Plant and Machinery (*f*)	$'000	371	385	357	416	346

For notes—See below last table on this page.

WOOL: CARDING SPINNING AND WEAVING

(Class VI, Sub-Class 3)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		4	4	4	4	5
Motors and Engines Ordinarily in Use	hp	(*a*)	6,714	7,054	7,273	7,731
Average Number of Workers (*b*)			2,314	2,410	2,614	2,672
Salaries and Wages Paid (*c*)	$'000		3,907	4,089	4,636	4,853
Cost of Materials Used	$'000		8,324	10,088	9,656	9,807
Other Specified Costs of Production (*d*)	$'000		906	885	914	939
Value of Output	$'000		15,427	16,936	18,100	17,862
Value of Production (*e*)	$'000		6,198	5,964	7,529	7,116
Value of Land and Buildings (*f*)	$'000		1,316	1,659	1,955	2,093
Value of Plant and Machinery (*f*)	$'000		3,025	2,946	3,070	3,361

(*a*) Details not available for publication.

For other notes—See below last table on this page.

FLOUR MILLING

(Class IX, Sub-Class 1)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		4	5	5	5	5
Motors and Engines Ordinarily in Use	hp	1,320	1,694	1,814	1,978	1,966
Average Number of Workers (*b*)		129	142	135	134	130
Salaries and Wages Paid (*c*)	$'000	273	293	288	296	314
Cost of Materials Used	$'000	2,585	2,351	2,289	2,332	2,559
Other Specified Costs of Production (*d*)	$'000	144	138	163	178	227
Value of Output	$'000	3,020	3,272	3,156	3,254	3,469
Value of Production (*e*)	$'000	540	783	705	743	683
Value of Land and Buildings (*f*)	$'000	363	632	656	655	661
Value of Plant and Machinery (*f*)	$'000	352	736	670	671	662

(*b*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*c*) Excludes amounts drawn by working proprietors.
(*d*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*e*) Value of output less specified costs of production, other than labour.
(*f*) At 30 June. Includes estimated value for *rented* land, buildings, plant and machinery.

BAKERIES (INCLUDING CAKES AND PASTRY) (*a*)

(Class IX, Sub-Class 5)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		142	144	141	141	139
Motors and Engines Ordinarily in Use	hp	1,268	1,341	1,071	1,079	1,181
Average Number of Workers (*d*)		721	754	643	653	659
Salaries and Wages Paid (*e*)	$'000	981	1,023	918	977	1,033
Cost of Materials Used	$'000	3,039	3,085	2,920	2,991	3,210
Other Specified Costs of Production (*f*)	$'000	335	338	303	327	337
Value of Output	$'000	5,660	6,415	5,908	5,908	6,255
Value of Production (*g*)	$'000	2,286	2,992	2,684	2,590	2,708
Value of Land and Buildings (*h*)	$'000	2,164	2,345	2,052	2,130	2,208
Value of Plant and Machinery (*h*)	$'000	1,204	1,443	1,208	1,174	1,299

(*a*) Years prior to 1963–64 include statistics of biscuits.

For other notes—See below last table on this page.

CONFECTIONERY

(Class IX, Sub-Class 9)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		4	4	5	4	4
Motors and Engines Ordinarily in Use	hp	6,109	6,620	6,550	6,406	7,487
Average Number of Workers (*d*)		1,243	1,248	1,236	1,244	1,348
Salaries and Wages Paid (*e*)	$'000	2,585	2,628	2,743	2,898	3,184
Costs of Materials Used	$'000	7,170	7,388	8,109	8,706	9,079
Other Specified Costs of Production (*f*)	$'000	2,101	2,257	2,363	2,391	2,660
Value of Output	$'000	14,108	14,955	16,264	16,615	18,168
Value of Production (*g*)	$'000	4,837	5,310	5,792	5,517	6,429
Value of Land and Buildings (*h*)	$'000	2,331	2,325	2,277	2,280	2,713
Value of Plant and Machinery (*h*)	$'000	4,002	3,945	3,992	4,025	3,849

For notes—See below last table on this page.

JAM, FRUIT AND VEGETABLE CANNING (*c*)

(Class IX, Sub-Class 10)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		23	22	18	20	17
Motors and Engines Ordinarily in Use	hp	6,700	7,554	7,391	8,006	8,426
Average Number of Workers (*d*)		1,402	1,320	1,313	1,263	1,389
Salaries and Wages Paid (*e*)	$'000	2,757	2,533	2,470	2,963	2,943
Cost of Materials Used	$'000	4,681	3,979	3,146	4,706	5,727
Other Specified Costs of Production (*f*)	$'000	3,334	2,690	2,670	3,392	3,518
Value of Output	$'000	13,013	10,788	9,192	12,708	13,673
Value of Production (*g*)	$'000	4,998	4,119	3,376	4,610	4,427
Value of Land and Buildings (*h*)	$'000	2,652	2,820	3,030	3,530	3,800
Value of Plant and Machinery (*h*)	$'000	2,496	2,837	2,601	3,369	3,343

(*c*) Years prior to 1963–64 include statistics of dehydrated fruit and vegatables.

For other notes—See below last table on this page.

BACON CURING

(Class IX, Sub-Class 12)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		10	14	15	12	12
Motors and Engines Ordinarily in Use	hp	742	1,059	1,100	1,070	1,137
Average Number of Workers (*d*)		168	279	274	278	276
Salaries and Wages Paid (*e*)	$'000	339	568	577	594	685
Cost of Materials Used	$'000	2,210	2,961	3,400	3,784	4,330
Other Specified Costs of Production (*f*)	$'000	162	230	247	293	354
Value of Output	$'000	3,183	4,258	4,982	5,490	6,125
Value of Production (*g*)	$'000	810	1,066	1,335	1,413	1,442
Value of Land and Buildings (*h*)	$'000	603	859	859	882	966
Value of Plant and Machinery (*h*)	$'000	162	286	310	316	325

(*d*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*e*) Excludes amounts drawn by working proprietors.
(*f*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*g*) Value of output less specified costs of production, other than labour.
(*h*) At 30 June. Includes estimated value for *rented* land, buildings, plant and machinery.

BUTTER FACTORIES (*a*)

(Class IX, Sub-Class 13)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		16	16	12	12	12
Motors and Engines Ordinarily in Use	hp	2,780	2,893	2,066	2,099	2,493
Average Number of Workers (*d*)		382	368	228	242	255
Salaries and Wages Paid (*e*)	$'000	835	825	499	556	628
Cost of Materials Used	$'000	9,601	10,671	9,403	9,872	9,771
Other Specified Costs of Production (*f*)	$'000	985	1,101	332	312	405
Value of Output	$'000	13,004	14,189	11,499	11,782	11,454
Value of Production (*g*)	$'000	2,419	2,418	1,764	1,598	1,278
Value of Land and Buildings (*h*)	$'000	815	801	469	607	647
Value of Plant and Machinery (*h*)	$'000	972	1,026	706	719	1,256

(*a*) Years prior to 1963–64 include statistics of 'Condensed and Dried Milk Factories'.

For other notes—See below last table on this page.

CHEESE FACTORIES

(Class IX, Sub-Class 14)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		5	5	8	8	7
Motors and Engines Ordinarily in Use	hp	167	157	241	242	338
Average Number of Workers (*d*)		16	21	36	71	82
Salaries and Wages Paid (*e*)	$'000	45	49	90	165	176
Cost of Materials Used	$'000	219	237	500	889	1,395
Other Specified Costs of Production (*f*)	$'000	26	26	68	121	128
Value of Output	$'000	327	340	730	1,341	1,847
Value of Production (*g*)	$'000	82	87	162	331	324
Value of Land and Buildings (*h*)	$'000	63	70	90	259	425
Value of Plant and Machinery (*h*)	$'000	35	43	94	284	831

For notes—See below last table on this page.

AERATED WATERS, CORDIALS, ETC.

(Class IX, Sub-Class 21)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		13	13	13	13	13
Motors and Engines Ordinarily in Use	hp			592	609	707
Average Number of Workers (*d*)				197	202	217
Salaries and Wages Paid (*e*)	$'000			406	442	488
Cost of Materials Used	$'000			1,030	896	1,159
Other Specified Costs of Production (*f*)	$'000	(*b*)	(*b*)	399	478	522
Value of Output	$'000			2,422	2,279	2,718
Value of Production (*g*)	$'000			946	904	1,037
Value of Land and Buildings (*h*)	$'000			523	552	583
Value of Plant and Machinery (*h*)	$'000			506	490	477

(*b*) Details relating to years prior to 1963–64 are not available for publication separately.

For other notes—See below last table on this page.

SAWMILLS (*c*)

(Class X, Sub-Class 1)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		329	324	305	308	289
Motors and Engines Ordinarily in Use	hp	39,838	40,117	42,313	44,126	45,735
Average Number of Workers (*d*) (*i*)		2,684	2,691	2,754	2,850	2,942
Salaries and Wages Paid (*e*)	$'000	4,768	4,983	5,296	5,899	6,417
Cost of Materials Used	$'000	11,334	12,933	13,379	14,934	16,420
Other Specified Costs of Production (*f*)	$'000	1,100	1,144	1,206	1,480	1,520
Value of Output (*j*)	$'000	21,415	23,191	23,952	27,866	30,058
Value of Production (*g*)	$'000	8,981	9,113	9,366	11,451	12,117
Value of Land and Buildings (*h*)	$'000	2,147	2,334	2,546	3,033	3,230
Value of Plant and Machinery (*h*)	$'000	3,676	3,491	3,449	3,623	3,722

(*c*) Years prior to 1963–64 include statistics of 'Plywood Mills'.
(*d*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*e*) Excludes amounts drawn by working proprietors.
(*f*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant
(*g*) Value of output less specified costs of production, other than labour.
(*h*) At 30 June. Includes estimated value for *rented* land, buildings, plant and machinery.
(*i*) Does not include workers in the bush (felling, carting logs to mill, etc.).
(*j*) Includes value added by re-sawing and planing.

JOINERY

(Class X, Sub-Class 4)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		115	110	109	113	109
Motors and Engines Ordinarily in Use	hp	3,692	3,800	3,859	3,686	3,847
Average Number of Workers (*b*)		645	669	601	619	665
Salaries and Wages Paid (*c*)	$'000	1,125	1,219	1,211	1,218	1,395
Cost of Materials Used	$'000	1,810	1,909	1,938	1,967	2,350

Value of Land and Buildings (*f*)	$'000	614	648	785	871	838
Value of Plant and Machinery (*f*)	$'000	125	177	180	166	201

For notes—See below last table on this page.

PAPER MAKING (*a*)

(Class XII, Sub-Class 9)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		41	43	4	4	4
Motors and Engines Ordinarily in Use	hp	89,262	107,996	106,074	107,560	108,528
Average Number of Workers (*b*)		4,258	4,419	3,373	3,335	3,556
Salaries and Wages Paid (*c*)	$'000	9,920	10,669	9,227	9,897	10,489
Cost of Materials Used	$'000	14,953	16,877	14,906	16,397	17,964
Other Specified Costs of Production (*d*)	$'000	4,942	5,598	5,530	5,896	6,332
Value of Output	$'000	41,456	46,827	41,114	43,140	46,121
Value of Production (*e*)	$'000	21,560	24,352	20,677	20,848	21,825
Value of Land and Buildings (*f*)	$'000	12,284	12,967	9,829	9,763	10,097
Value of Plant and Machinery (*f*)	$'000	24,113	26,997	23,847	23,267	22,757

(*a*) Years prior to 1963–64 include statistics of 'Newspapers and Periodicals', 'Printing', 'Cardboard Boxes and Cartons', 'Paper Bags', etc.

For other notes—See below last table on this page.

TYRE RETREADING AND REPAIRING

(Class XIII, Sub-Class 2)

Item		1961–62	1962–63	1963–64	1964–65	1965–66
Number of Factories		22	22	20	19	20
Motors and Engines Ordinarily in Use	hp	646	546	510	496	552
Average Number of Workers (*b*)		140	132	129	126	144
Salaries and Wages Paid (*c*)	$'000	267	247	249	278	311
Cost of Materials Used	$'000	394	473	474	521	627
Other Specified Costs of Production (*d*)	$'000	70	76	70	70	75
Value of Output	$'000	1,007	1,084	1,181	1,185	1,302
Value of Production (*e*)	$'000	543	535	637	594	601
Value of Land and Buildings (*f*)	$'000	610	788	869	695	721
Value of Plant and Machinery (*f*)	$'000	250	266	279	258	300

(*b*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*c*) Excludes amounts drawn by working proprietors.
(*d*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*e*) Value of output less specified costs of production, other than labour.
(*f*) At 30 June. Includes estimated value for *rented* land, buildings, plant and machinery.

(*a*) Includes butter equivalent of butter oil.
(*b*) Short ton of 2,000 lb.
(*c*) Years prior to 1965-66 relate to production of cathode copper; 1965-66 relates to blister copper.
(*d*) Not dressed. Includes superficial feet equivalent of sliced and peeled veneers.
(*e*) Produced in the main from sawn timber shown in preceding column.
r Revised.

MANUFACTURING INDUSTRIES—STATISTICAL SUMMARY

Year	Number of Factories	Average Number (*a*) of Workers						Total Workers	Horse-power used in Factories (excludes Central Electric Stations)	Value at 30 June	
		Occupational Status			Sex						
		Working Proprietors	Managerial and Clerical Staff, etc. (*b*)	All Other Workers	Males	Females	Masculinity (Males per 100 Females)			Land and Buildings (*c*)	Plant and Machinery (*c*)
									'000 hp	$'000	$'000
1945-46	1,082	682	2,007	16,546	15,105	4,130	366	19,235	102	10,609	16,461

(*a*) Average for *whole* year. See explanatory note, page 5.
(*b*) Includes salaried managers, working directors, chemists, draftsmen and other laboratory and research staff.
(*c*) Includes estimated value for *rented* land, buildings, plant and machinery.
(*d*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*e*) Includes working proprietors.
(*f*) Excludes working proprietors and amounts drawn by them.
(*g*) Amounts paid to managerial and clerical staff, etc.
(*h*) Amounts paid to all other workers.
r Revised.

FACTORY FORM No. 3—SAWMILLING, TIMBER DRESSING, CASEMAKING—12 MONTHS ENDED 30th JUNE 1966

TASMANIAN FACTORY STATISTICS—Year Ended 30th June, 1966.

Required under the Commonwealth *Census and Statistics Act 1905-49*. This form must be completed and returned to the DEPUTY COMMONWEALTH STATISTICIAN, BOX 66A, G.P.O., HOBART, not later than 31st July, 1966. The returns are strictly confidential and will be used solely for statistical purposes. In no circumstances whatever will particulars of any individual business be disclosed to other individuals or Government Departments.

Please amend Name and Address if incorrect or incomplete:

1 LOCATION OF FACTORY:

Municipality in which Factory is situated: .....

NATURE OF WORK DONE: (*See* Instruction 4) .....

.....

Period Worked during year (*See* Instruction 6)

(01) ..... Months.

Office Use Only

FACTORY FORM No. 3—SAWMILLING, TIMBER DRESSING, CASEMAKING—12 MONTHS ENDED 30th JUNE 1966

PART B—SELECTED COSTS OF PRODUCTION—
(*See* Instructions 11–18 inclusive)

		Quantity	Cost (Nearest $)
			$
Power, Fuel and Light Used—Coal, Black	(26)	tons	
Coal, Brown	(27)	tons	
Brown Coal Briquettes	(28)	tons	
Coke	(29)	tons	
Wood (Weight)	(30)	tons	
Fuel Oil	(31)	gal.	
Tar Fuel	(32)	tons	
Electricity	(33)		
Gas—Town (reticulated public supply)	(34)		
Other (e.g., charcoal, steam, L.P.G. used as a fuel)	(35)		
Water Used (including water rates and carting)	(36)		
Lubricating Oils Used	(37)		
Repairs, &c. (not shown in line 50 below) including— (i) Value of tools replaced (not forming part of permanent plant); (ii) Repairs to plant and building. Material (at cost) used by own workmen; (iii) Cost of repairs to plant, &c., done by other than own workmen	(38)		
Containers, such as wrappers, bottles, tins, bags, sacks, cases, casks, corks, labels, &c., and materials used for packing during year	(39)		
Materials Used, treated, operated upon, or worked up. Total cost to you of all materials, not included above, used in producing output, the value of which is shown in PART C (*see* Instruction 12)	(40)		
TOTAL OF ABOVE SELECTED COSTS OF PRODUCTION	(41)		

PART C—VALUE OF OUTPUT (INCLUDING WORK DONE) DURING YEAR—
(*See* Instructions 15, 17, 18 and 19 to 23 inclusive)

		$
ITEM A—Selling Value at Works (exclusive of all delivery costs or charges) of goods manufactured, treated, or worked up during the year, including by-products	(42)	
ITEM B—Value of Other Work Done, in addition to the Manufacture or Treatment of the goods shown in Item A above, such as repairing and making up for customers, &c.; in these cases the amount charged should be stated	(43)	
TOTAL VALUE OF OUTPUT	(44)	

PART D—VALUE OF FACTORY STOCKS (Balance-sheet Basis)—
(*See* Instruction 24)

Figures are desired as at 30th June in each year.

If actual figures as at 30th June are not available, estimates based on the nearest available stocktaking will suffice (state date .....)

		Value of Factory Stocks	
		30th June 1965	30th June 1966
		$	$
Type of Stocks—Materials, Components, Containers, Supplies, Fuel, &c.	(45)		
Work in Progress	(46)		
Finished Goods	(47)		
TOTAL FACTORY STOCKS	(48)		

PART E—VALUE OF PREMISES AND MACHINERY USED FOR FACTORY AND WORKS PURPOSES—
(*See* Instructions 25 and 26)

		Land and Buildings	Plant and Machinery
		$	$
At beginning of year	(49)		
Add—Additions and Replacements during the year (not shown in line 38 above)	(50)		
Adjustments due to revaluation (+)	(51)		
TOTAL	(52)		
Less—Depreciation allowed during year	(53)		
Sales and Losses by fire, &c., during year	(54)		
Adjustments due to revaluation (−)	(55)		
At end of year	(56)		
If not owned state ANNUAL RENTAL payable	(57)		

PART F—MOTORS AND ENGINES EMPLOYED TO DRIVE MACHINERY—
(Exclude obsolete Motors and Engines) (*See* Instruction 27)

		Total Rated Horse-power	
		Ordinarily in Use	In Reserve or Idle
Electric Motors—Driven by—Purchased electricity	(58)	h.p.	h.p.
Electricity generated in own works (*see* line 65 below)	(59)	h.p.	h.p.
Steam—Reciprocating	(60)	h.p.	h.p.
Turbine	(61)	h.p.	h.p.
Internal Combustion—All types (Petrol, Distillate, Gas, &c.)	(62)	h.p.	h.p.
Water	(63)	h.p.	h.p.
TOTAL	(64)	h.p.	h.p.
Electricity—Total generated during Year for all purposes	(65)	'000 kWh	

TASMANIA

INSTRUCTIONS TO PERSONS FILLING IN FACTORY RETURNS

GENERAL

1. Under the authority of the Commonwealth " Census and Statistics Act 1905-1949 " these returns are required to be filled in with the necessary details for the period 1st July, 1965, to 30th June, 1966, or thereabouts, and should be completed and returned by post to The Deputy Commonwealth Statistician, Hobart, not later than the 31st July, 1966. No extension of time will be granted unless it can be shown that it is impracticable to render the return by the specified date.

2. Returns will be regarded as strictly confidential. The information given in these forms is used only for statistical purposes to arrive at aggregates for each kind of industry. The contents of individual returns are not disclosed in any way and no other department, or officer unattached to this Office, is permitted to see them.

3. Several Industries in One Establishment.—In large establishments where two or more industries are carried on, separate forms will be supplied, which should, if practicable, be filled in for each industry. The particulars relating to the whole establishment should be allocated, as nearly as possible, to each industry.

4. The line " Nature of Work Done " should be used for a brief description of the main operations or processes carried out, e.g., Brickmaking, Shirtmaking, Motor Repairing, Bread Baking, Sawmilling, &c.

5. A factory is defined as an establishment (mill, workshop, plant, &c.) in which four or more persons are employed or where power (other than manual) is used in the manufacture, preparation, treatment or repair of any article. Where a manufacturing business is carried on in connexion with a wholesale or retail trading business, the return must be restricted to the details of the *manufacturing branch only*. That portion of the premises used for manufacturing purposes should be separately valued and shown under Part E. *Particulars concerning Salesmen, Travellers, Collectors and Retailing Storemen must NOT be included with persons employed in the factory, or in salaries and wages paid.*

EXPLANATION OF ITEMS REQUIRED

6. Period Worked.—The time the establishment was working during the year is to be given in calendar months, holidays during working period also being included.

PART A.—PERSONS EMPLOYED AND WAGES PAID

7. Number of Working Proprietors (*see* Section (i)).—Show the average monthly number of male and female working proprietors engaged in the office or factory during the period of operation. There are no working proprietors in a proprietary company. Particulars of working directors should be included in Sections (ii), (iii), (iv) and (v).

8. Employment on Last Pay Day of Month (*see* Section (ii)).—Particulars should exclude working proprietors, and should relate to the same classes of employees as are covered by the " Average Monthly Number of Employees " as shown in Section (iv).

9. Average Number of Employees (*see* Section (iv)).—This means the average monthly number *during the period of operation*. For example, for an establishment working the whole year the average will be the sum of the *total* employees on the office and factory pay-roll on the last pay day of each month divided by 12; the average for an establishment working three months will be the sum of the monthly totals divided by 3, and similarly with other periods. The total of the average numbers employed must be distributed under the various groups as shown. *Persons engaged in selling or distributing must NOT be included.* (*See also Instruction* 5 *above.*)

10. Salaries and Wages Paid (*see* Section (v)).—

Working Proprietors.—No amount of remuneration is required to be shown.

Other Employees.—The total amounts of salaries or wages paid to all employees during the year (including overtime, bonuses, &c.) are required to be given.

Pay-roll Tax.—The amount paid as PAY-ROLL TAX must not be included as salaries and wages paid.

Note.—**Carters** (on wages—not contractors) employed in bringing material for manufacture should be included, but not those engaged entirely *in the delivery of manufactured goods*, as the value of output of such goods is the selling value " at works ", excluding all delivery costs or charges. If the carter's work be divided in this respect, however, his time and wages should be apportioned accordingly.

PART B.—SELECTED COSTS OF PRODUCTION

11. Cost of Power, Fuel and Light Used (Lines (26)-(35)).—Care should be exercised to see that the costs are not duplicated in any of the other items and that full particulars of quantities asked for are given for *each kind* of fuel, &c. (Where exact figures are not available, a careful estimate must be given.) Coal used in the manufacture of coke and gas, and coke used in steel furnaces, should not be included here but shown as a raw material in Line (40). Acetylene Gas and Oxygen should be similarly treated.

12. Materials Used, &c. (Line (40)).—The value quoted should be the net cost landed at the factory of all materials **actually used** during the year exclusive of all subsidies, rebates, &c., allowed by the Government on such raw materials. Care should be taken to ensure that items included here have not been included already in other headings under Part B.

13. Making-up or Treating Customer's Materials.—Include in Part B, Line (40), the value (cost) of maker's own materials, such as trimmings, cottons, &c. (dyes, &c., in dyeing), used, and in Part C, Line (43), the amount charged to customers for making-up or treating their materials.

14. Containers, &c. (Line (39)).

Non-returnable.—Show the net cost to you of non-returnable containers actually used during the year.

Returnable.—Show the actual net cost to you of replacements of returnable containers during the year.

15. Repair Work of any Kind.—The value (cost) of all materials used in repairing should be included in Line (40), while the amount charged for making repairs should be shown in Part C, Line (43).

16. Other Costs of Production.—Costs such as insurance, taxation, &c., must not be included in Part B of the return. This is a return of selected items of factory statistics and is not intended to embrace all items of costs nor to reveal profit or loss. Only those costs specifically mentioned on the form are to be shown therein.

17. Assembling the Manufactured Parts of Machines, Motor Cars, &c.—Where operations consist wholly or partly of assembling the manufactured parts of machines, motor cars, &c., the value of the parts should *not* be included in the cost of materials used, nor in the value of output. The latter value should be shown in Part C, Line (43), and should include the actual labour cost of assembling the parts, cost of fuel and power used, any additional expenses of assembly, and profit made on such work.

18. Finished Goods Purchased for Re-sale.—The value of finished goods purchased for re-sale without treatment must not be included anywhere.

PLEASE TURN OVER

PART C.—VALUE OF OUTPUT

19. **Value of Output.**—

Item (A)—Line (42).—The value of output here given should be the *selling value at factory to customers of all goods made or processed during the year (including by-products) after deducting all costs of selling and distribution*, and after adding any bounty or subsidy received by the manufacturer on finished products and any wage refund or profit subsidy paid to the factory by the Government.

Item (B)—Line (43).—The value here given should be the *amount charged to customers for other work done such as repairs, renovations and alterations, and work done on commission.*

20. **Goods in Process of Manufacture.**—The value of goods in process at the **end** of the year just completed must also be included in the value of output. Similarly the value of goods in process at the **beginning** of the same year must be added to the " cost of materials used ".

21. **Costs of Installation, &c.**—Where the selling price of manufactured goods includes installing or fixing (shop and window fittings, tiles, fibrous plaster sheets, &c.) the charges for transport, installation, erection or fixing of such goods must be deducted in valuing output in Item (A), Line (42), Employees engaged in such work and their wages must also be excluded from Part A.

22. **Excise and Sales Tax** must not be included in the " Value of Output " or in the particulars given of any article manufactured.

23. **Bounty and Subsidy.**—The amount received as bounty or subsidy (of any kind) on the production of goods or as wage refund or as profit subsidy under the price stabilization scheme or otherwise must be included in the value of goods manufactured (Item (A), Line (42)).

PART D.—VALUE OF FACTORY STOCKS

24. Include all items classifiable as factoy stocks whether located *at the factory* or not. Valuation (including that for work in progress) should be on the basis used for balance-sheet purposes. Where work is done on contact for others the value to be shown should be the cost of work done to 30th June less progress payments received.

PART E.—VALUE OF PREMISES AND MACHINERY USED FOR FACTORY AND WORKS PURPOSES

25. **Value of Land and Buildings used for Works and Factory Purposes.**—Where the Land, Buildings and Fixtures are the property of the occupier, the values stated should be the depreciated values or book values *less* any depreciation reserve existing in respect of them. If the premises are rented, state the annual rental payable exclusive of rates and taxes.

26. **Value of Machinery and Plant.**—This should include the value of all machinery, implements, and tools used; also vehicles and plant for the conveyance of raw materials, and casks in the case of a brewery. In brickyards, potteries, lime kilns and glassworks the value of the kiln should be included under this head, and not as a building. The values stated should be the depreciated values or book values *less* any depreciation reserve existing in respect of them. Where machinery is rented, state the annual rental payable.

PART F.—MOTORS AND ENGINES EMPLOYED TO DRIVE MACHINERY

27. **Motors and Engines.**—Total rated horse-power is required separately for motors and engines ordinarily in use and for those in reserve or idle (i.e., in use only occasionally as during periods of breakdown to power supply). Obsolete motors and engines must be omitted altogether.

If the same power is used in the one establishment for more than one industry, the *horse-power* of the engines should be allocated, if practicable, as indicated in Instruction 3 above.

PART G.—MATERIALS USED

28. Details shown for materials used should refer to actual usage and not to purchases. Values should be shown at cost as delivered at factory as included in Materials used—Line (40) in Part B, " Selected Costs of Production ".

PART H.—ARTICLES PRODUCED

29. Details shown for articles produced should refer to goods actually made and/or assembled. Values should be selling value at factory (exclusive of all delivery costs and charges) as included in Item A—Line (42) in Part C, " Value of Output ".

DIRECTIONS RELATING TO SPECIAL INDUSTRIES

30. **Cold Storage.**—The value of the commodities placed in the cold store should not be included in the cost of materials used (Part B), nor in the value of the output (Part C). The amount to be shown in Item B—Line (43) in Part C, should include the actual labour cost, the cost of fuel and power used, any additional expenses of storing and profit made on such work.

31. **Food-packing, Tobacco-cutting and Packing, Tea-blending and Packing, Bottling and Grading Establishments.**—In these and other similar establishments where imported or other goods in bulk are made up in packets, **but no actual manufacturing is done,** only the value added to the material by the operation should be shown in Item B—Line (43) in Part C. This value may be ascertained by subtracting the cost of materials used from the wholesale selling value of the finished goods.

32. **Brick, Pottery, Tile and Lime Burning Works.**—The value of materials used shown in Part B must include wages of pitmen and quarrymen and all other costs incidental to obtaining clay or limestone and delivery at the kiln. Such employees and the wages paid to them, should, therefore, not be included in Part A. The value of the kiln must be included as part of your plant and not as a building.

If any difficulty arises the Deputy Commonwealth Statistician will be pleased to furnish additional information. (Box 66A, G.P.O., Hobart. Telephone 2 2747.)

R. LAKIN,
Deputy Commonwealth Statistician.

Commonwealth Bureau of Census and Statistics
Tasmanian Office,
T. & G. Building,
Collins Street,
Hobart.

2. BUILDING STATISTICS

SCOPE

In the section that follows, building statistics relate exclusively to the erection of new buildings, including major new additions to existing buildings; construction work such as the building of railways, bridges, earthworks, water storages, piers, wharves, etc. is excluded. Minor additions, alterations, renovations and repairs to buildings are also excluded because of the difficulty of obtaining lists of persons who undertake this work.

When a dwelling is attached to a new building, the whole unit, both in regard to number and value, is classified according to the type of new building, (e.g. a new shop and dwelling is classified simply as a shop). Figures for flats include 'home units', but not conversions of existing buildings into flats. Numbers shown for flats refer to number of new *individual* dwelling units.

Details obtained from government authorities on their construction programmes and from building contractors refer to all parts of the State. Details for owner builders cover only those areas subject to building control by Local Government Authorities; thus some farm buildings are excluded, but this does not affect the figures materially.

SOURCE OF DATA

The main statistics relate to building approvals and to building operations (commencements, completions, etc.). The data are derived as follows:

Building Approvals: These comprise: (*a*) Approvals by Local Government Authorities for the construction of private buildings (*b*) Contracts let and day labour projects commenced by government authorities. (*c*) Private buildings reported by contractors to have been commenced in certain areas of the few rural municipalities where building regulations do not apply to the whole municipality. Details are collected and compiled on a monthly basis.

Building Operations: Returns are obtained from: (*a*) Building contractors engaged in the erection of new buildings. (*b*) Owner-builders. (*c*) Commonwealth, State, Semi and Local Government Authorities. Statistics are collected and compiled on a quarterly basis.

DEFINITIONS

Houses and Flats: Figures for houses and flats exclude those attached to other new buildings.

Contract-Built: Includes the operations of all building contractors and government authorities which undertake the erection of new buildings.

Owner-Built: An 'owner-built' house is one actually erected or being erected by the owner, or under the owner's direction, without the services of a contractor who is responsible for the whole job.

Commenced: A building is regarded as having been commenced when work on the foundations has begun.

Completed: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract.

Both with 'completions' and 'commencements', there is some difficulty in maintaining a uniform classification since the definition of an exact point of time in building operations is involved.

Under Construction: A building is so classified if it is uncompleted at the end of the period, whether or not work on it was actively proceeding at that date.

Values: All values exclude the value of land and represent the estimated value of buildings *on completion*. In the case of owner-built dwellings, the owner-builder is required to estimate the value from the cost of the materials and the cost of labour, including his own.

New buildings, including dwellings, with an estimated value on completion of less than $1,000 are excluded from the tabulations.

Values of Work Done: These are the estimated values of work actually carried out on buildings during the period. For any building the sum of these values obtained during its construction equals the value of the completed building.

Employment: The figures shown on page 58 relate to persons working on the jobs of contractors who undertake the erection of new buildings and of government authorities which erect new buildings on their own account. They include persons engaged on alterations, additions, repairs and maintenance when these jobs are undertaken by such contractors and authorities.

Persons working on owner-built houses, and employees of builders who undertake only alterations, additions, repairs and maintenance are excluded.

SUBURBS OF HOBART AND LAUNCESTON (pages 53, 54 and 57)

(*a*) Hobart Suburbs comprise:

(i) Parts of Kingborough Municipality (Blackmans Bay, Kingston, Taroona, etc.).

(ii) Parts of Clarence Municipality (Bellerive, Howrah, Warrane, Lindisfarne, Risdon Vale, etc.).

(iii) All Glenorchy City.

NOTE: Definition of 'Hobart and Suburbs' was extended to include Risdon Vale as from 30 June 1961.

(*b*) Launceston Suburbs comprise:

(i) Parts of St. Leonards Municipality (St. Leonards, Young Town, Waverley, Punchbowl, Norwood, Ravenswood, E lphin, etc.).

(ii) Parts of Lilydale Municipality (Newnham, Rocherlea, Mayfield, Vermont, etc.).

(iii) Parts of Beaconsfield Municipality (Riverside, Tenalga, Cormiston, etc.).

(iv) Parts of Westbury Municipality (Prospect Vale, etc.).

PREFACE

This publication replaces two former annual publications, namely

Public Finance

Local Government Finance

The contents of these previous publications have been revised for the purposes of this publication; in addition a new section on Private Finance has been included.

GENERAL NOTES

Values are expressed in dollars ($) and/or cents (c) Australian, unless another currency is specifically stated.

Where figures have been rounded in this publication, any discrepancies between totals and sums of components are due to rounding.

The following symbols, where shown in columns of figures, mean:

.. Nil or less than half the final digit shown, or not applicable.

r Figure or series revised since previous publication.

Where shown, n.e.i. means not elsewhere included.

FINANCE, 1965-66

Betting Statistics: Licenced Bookmakers' Turnover and Totalisator Investments	68

PUBLIC FINANCE

SCOPE, DEFINITIONS AND EXPLANATORY NOTES

Sources: The information on public finance has been extracted from the following annual publications of the Tasmanian Government.

Consolidated Revenue Fund: Statement of Estimated Expenditure and Estimated Revenue.

The Budget Speech and Financial Statement of the Treasurer of Tasmania.

Details of the Loan Fund Estimates.

Report of the Auditor-General.

Tasmanian Public Account: The State Public Account includes the Consolidated Revenue Fund, the Accumulated Revenue Fund, the Trust and Special Funds, and the Loan Funds.

The Consolidated Revenue Fund: Ordinary revenues from taxation and other sources are paid into the Consolidated Revenue Fund from which the main expenditures are for public debt charges, education, development of State resources, health and hospitals, general administration, subsidies to State business undertakings, law and order and certain welfare activities. Not all taxes are paid nto Consolidated Revenue; some taxation collections are paid to special funds (e.g. Motor Taxation to Transport Commission, Racing Taxation to Racing Commission).

Details of other Government activities separated from the Consolidated Revenue Account are given below.

The Accumulated Revenue Account: The Accumulated Revenue Account is a suspense account recording accumulated surpluses and deficits in the Consolidated Revenue Fund and also the funding of deficits. Positive adjustments to the Special Grant from the Commonwealth (see below) are also transferred from the Consolidated Revenue Fund to this Account.

The Trust and Special Funds: The Trust and Special Funds cover special transactions outside the ordinary operations of departmental expenditure such as funds from the Commonwealth for special purposes and moneys held for expenditure by the State at some future time.

The Loan Fund: The Loan Fund receives its funds from public borrowings, repayment of advances by semi-government authorities and Commonwealth Capital Grants. Main expenditure from the Loan Fund is on State public works and advances to State business undertakings.

Effect of Adjustment to Special Grant (Commonwealth): The Special Grant recommended by the Commonwealth Grants Commission under Section 96 of the Constitution has, since 1947-48, been in two parts. One part is in the nature of a preliminary grant to meet the estimated financial needs of the State during the current financial year. The other part is an adjustment made after the close of the financial year. The magnitude of the adjustment (which may be positive or negative) will depend on whether the preliminary grant made two years earlier proved greater or less than the amount of financial assistance deemed justified by the Grants Commission. For example, the Special Grant for 1965-66 was $17,732,000 subject to a positive adjustment of $1,332,000 assessed on 1963-64 accounts. The adjustment of $1,332,000 was transferred to the Accumulated Revenue Account.

Government Activities Separated from the Consolidated Revenue Fund:

(i) Railways, Shipping and Road Transport Services

In Tasmania, the railways (in common with certain other public transport utilities) are administered by the Transport Commission and, since 1939-40, only the net trading profits or losses of this authority have been paid to or from the Consolidated Revenue Fund. Interest and redemption charges on advances to the authority by the State Government are paid into Consolidated Revenue.

Omnibus services in Hobart, Launceston and Burnie are operated by the Metropolitan Transport Trust. Only the net losses of this authority are charged against Consolidated Revenue.

(ii) Hydro-Electric Commission

Gross receipts and expenditure of this authority are not included in the Consolidated Revenue Fund. Interest and redemption charges on advances to the authority by the State Government are paid into Consolidated Revenue by the Commission.

(iii) Finance for Roads

The Commonwealth Aid Roads Grant is paid into the State Highway Trust Fund which is augmented by transfers from Consolidated Revenue Fund.

(iv) Miscellaneous Activities and Authorities

Also excluded from the Consolidated Revenue Fund are the gross receipts and payments of: Regional Water Supplies, Government Printing Office, Government Insurance Office, Public Trustee, Housing Authorities, Closer Settlement, Rural Credits and other activities of the Agricultural Bank. In accordance with various Acts, the net profits or losses of the previous year are paid to or from the Consolidated Revenue Fund for the current year.

(a) The assessment is shown against the actual year for which accounts have been examined by the Grants Commission. The two-year delay in application is due to the Grants Commission's obligation to perform a minute analysis of the accounts of the claimant and non-claimant States before announcing the adjustments.
(b) Advance grant plus or minus the completion grant applied.
(c) Including Tax Re-imbursement Grants up until 1958–59.
(d) An Additional Assistance Grant of $3,040,000 was paid into a Trust Account in 1962–63.
(e) An Additional Assistance Grant of $2,816,000 made in 1963–64 was paid into a Trust Account but subsequently $900,000 was transferred into Consolidated Revenue.

Other Purposes—						
Forestry	698	883	1,285	1,701	1,322	14,248
Immigration	..	..	..	..	..	471
Soldiers' Settlement Losses (Funded)	*Cr* 40	..	..	..	..	2,358
Miscellaneous Capital Losses (Funded)	..	..	..	..	..	603
Loan Flotation and Conversion Expenses	76	197	32	46	9	5,167
Revenue Deficits Funded	112	113	161	..	..	11,493
Total	30,088	30,511	32,905	33,352	36,573	555,428

(*a*) Net loan expenditure is gross loan expenditure less repayments credited to loan fund. In 1965-66, repayments amounted to $2,837,215.

(*b*) Excludes expenditure on War Service Land Settlement from Commonwealth Funds. See note (*a*) on page 14.

(*c*) Excludes expenditure under Commonwealth-State Housing Agreements. See note (*a*) on page 14. Advances under this agreement are a liability of the State as trustee rather than as creditor.

NOTE: Aggregate Net Loan Expenditure can be reconciled with the Public Debt in the following manner—

	$'000	$'000
Aggregate Net Loan Expenditure to 30 June 1966	555,428	
Add Loan Fund Balance 30 June 1966	1,755	
Grand Total Loans Raised to 30 June 1966		557,182
Less Aggregate Redemptions from Sinking Funds		56,313
Less Liability for Exchange on Overseas Loans		9,212
Public Debt (mint par of exchange) at 30 June 1966		491,658

GROSS AND NET LOAN EXPENDITURE

Year	Loan Expenditure		Revenue Deficit Funded (*b*)	Net Loan Expenditure per Head
	Gross	Net (*a*)		
	$'000	$'000	$'000	$
1944-45	3,587	1,806	910	7.30

(*a*) There was no debt outside Australia at 30 June 1966.
(*b*) These advances were mainly from State Loan Funds.
(*c*) Much of the debt is in the form of Instalment Debentures which involve equated periodic payments of redemption plus interest. Interest is not included in the table.
(*d*) Mainly periodic payments in reduction of principal; redemption of loans from Sinking Funds are included.
(*e*) Includes Ulverstone Harbour
(*f*) Only Semi-Government Authorities which have additional loan liabilities to creditors other than the State Government are included. Thus authorities like the Transport Commission and Housing Department, which have borrowed exclusively from the State Government, are excluded.
(*g*) Loans for Tramways raised by Hobart and Launceston Corporations before the formation of the Metropolitan Transport Trust are included as direct liabilities of the Trust.
(*h*) Loan money for this fund is made available by the Commonwealth but passes through State Trust Funds.
(*i*) Includes loan debt transferred from Rivers and Water Supply Commission.

(*a*) Interstate traffic is included in the total for each system over which it passes.
(*b*) Based on ticket sales making allowances for periodical tickets. Tickets sold at concession rates are counted as full journeys.
(*c*) Passenger journeys continuing over both the Trans-Australian and Central Australian Railway systems are counted twice. In 1965-66 these numbered 9,531.
(*d*) Tonnages carried over both the Trans-Australian and Central Australian Railway systems are counted twice. In 1965-66 these amounted to 109,069 tons.

LOCAL GOVERNMENT FINANCE

SCOPE, DEFINITIONS AND EXPLANATORY NOTES

Organisation of Local Government in Tasmania: For Local Government Administration, Tasmania is at present divided into 49 areas comprising the cities of Hobart, Launceston and Glenorchy and 46 municipalities.

The authority for and the form of local government are prescribed entirely by State legislation and such legislation has largely been consolidated in the Local Government Act 1962.

Scope and Sources of Information: Local government finance statistics are compiled by the Bureau from copies of statements of accounts which the local government authorities are obliged by law to compile. The City of Glenorchy and the forty-six municipalities are required to submit annually to the Auditor General a 'Statement of Accounts' in pursuance of section 329 of the Local Government Act 1962. These Statements of Accounts are compiled on a receipts and payments basis. The Cities of Hobart and Launceston submit annually to the Auditor General Statements of Accounts compiled on an income and expenditure basis.

Principle Sources of Revenue: The principle sources of revenue for local government authorities are the charging of rates on the annual value of property, Government grants and charges for public works and services. There is considerable diversity in the types of rate imposed by individual local government authorities. In Hobart and Launceston a consolidated rate is levied. In most municipalities property holders are charged basic general, road, light and health rates but also are subject to additional rates assessed according to the services provided (e.g. fire brigade and library rates).

Business Undertakings and Ordinary Services: In the following statistics, a distinction is drawn between ordinary and business undertakings' revenue and expenditure. The only activities classified as 'business undertakings' are water supply, sewerage and abattoirs. All other activities are classified as ordinary services.

Main Sources of Local Government Loan Funds: The principle Tasmanian sources of loans are banks, superannuation and other trust funds, insurance companies and in the case of the cities, public issues of debentures. The local government loan debt includes only a small liability in respect of advances from the State Government.

Form of Local Government Debt: Much of the debt (of the municipalities) is in the form of Instalment Debentures which involve equal periodic payments usually yearly or half-yearly; such payments are credited to redemption and interest in changing proportions as the outstanding balance of the loan is reduced.

Limitations on Borrowings: The amount borrowed annually by local government authorities is regulated by the Australian Loan Council. Municipalities are also limited by Section 286 (1) of the Local Government Act 1962 which limits total borrowings to ten times the average income for the preceding three financial years.

Change in Geographical Classification: As from 30 June 1966, changes have been made to some Statistical Divisions in the Southern part of the State; their effect is to enlarge and rename the Statistical Division containing Hobart and Glenorchy, and to correspondingly diminish the area of the adjacent Southern and South Eastern Statistical Divisions.

Whilst the enlarged Division containing Hobart and Glenorchy has been *renamed*, the diminished Southern and South Eastern Divisions *retain the same name*. The changed Divisions and their composition are listed below:

CHANGED STATISTICAL DIVISIONS

Changed Divisions	New Components (in terms of Local Government Areas)	Nature of Change
Hobart Statistical Division (replaces South Central Division and area greatly enlarged)	Hobart, Glenorchy, Clarence plus *urban parts* of Brighton, Kingborough, New Norfolk and Sorell	South Central Division (Hobart and Glenorchy) absorbed and *urban parts* of previous Southern and South Eastern Divisions incorporated.
South Eastern (name unchanged but area diminished)	Glamorgan, Green Ponds, Richmond, Spring Bay, plus *rural parts* of Brighton and Sorell	Clarence plus *urban parts* of Brighton and Sorell transferred to Hobart Division
Southern (name unchanged but area diminished)	Bruny, Esperance, Huon, Port Cygnet, Tasman, plus *rural parts* of Kingborough and New Norfolk	*Urban parts* of Kingborough and New Norfolk transferred to Hobart Division.

Because the new Hobart, South Eastern and Southern statistical divisions do not coincide with local government area boundaries and of the impracticability of breaking down local government area statistics to relate to smaller geographical units it has not been possible to compile individual totals for these statistical divisions in the following tables; only a combined total for the three divisions is given.

(a) The year shown is the year of the latest complete revaluation (incorporated in the values shown) of the Local Government Area made by the State Valuation Branch under the 'Land Valuation Act, 1950'.

(b) Average rate per $1 of Rateable Annual Value. In all Local Government Areas except Hobart and Launceston, individual rates vary from the average according to location of the property and services rendered.

(c) Includes permanent and temporary employees at 30 June 1966, but excludes 90 part-time employees.

(*a*) As from 1964-65, the consolidated rate in respect of Hobart and Launceston Corporations has been apportioned between the various rate components.
(*b*) Includes Building and Subdivision fees.
(*c*) From 1965-66, revenue from Markets is included in Other Council Properties.
(*d*) Includes Commonwealth Government Employment Stimulation grants: $291,200 in 1961-62, $1,370,734 in 1962-63, $840,854 in 1963-64 and $117,760 in 1964-65.
(*e*) Includes Sinking Fund contributions and interest earnings. Prior to 1964-65, receipts of Sinking Funds were offset against their corresponding expenditure items
(*f*) These figures understate actual receipts since some authorities offset their grants against payments made to State regional water schemes and record only net figures.

(*a*) Contributions exclude interest earnings. Prior to 1964-65 contributions to Sinking Funds were offset against their corresponding receipt items.
(*b*) Net Plant Maintenance is plant maintenance and operating expenses less hire charged to works.
(*c*) From 1965-66, expenditure on Markets is included in Other Council Properties.
(*d*) These figures understate actual payments since some authorities offset their grants against payments made to State regional water schemes and record only net figures.

(a) There was no debt outside Australia at 30 June 1966.
(b) These advances were mainly made from State Loan Funds.
(c) Hobart loan debt includes $270,954 for West Derwent Water Scheme. Responsibility for this debt was transferred to Metropolitan Water Board on 1 July 1962.

ADDITIONAL NOTES ON WATER SCHEMES IN TASMANIA

The Metropolitan Water Board, constituted under the provisions of the Metropolitan Water Act 1961, is responsible for the provision of an adequate bulk water supply to the metropolitan water districts of Hobart, Glenorchy, Clarence and Kingborough (Taroona Ward). The Board is empowered to direct the metropolitan local authorities in the operation of their bulk water supply works. Construction of the West Derwent Water Scheme commenced in 1962. The total cost of construction to 30 June 1966 was $5,128,341.

The Metropolitan Water Board is also vested with the control and management of the Southern Regional Water Supply Scheme which supplies the local government areas of Brighton, Clarence, Green Ponds, New Norfolk and Richmond. The capital cost of the scheme to 30 June 1966 was $2,329,686.

The North Esk Regional Water Scheme is managed by the Rivers and Water Supply Commission. This scheme serves portions of the local government areas of Evandale, George Town, Lilydale, St. Leonards and Westbury and also provides water for industrial purposes. The St. Leonards' water reticulation also serves portion of the local government areas of Evandale and Westbury. The capital cost of the scheme to 30 June 1966 was $3,013,900.

The West Tamar Water Scheme is managed and maintained by the Beaconsfield Municipal Council as an agent for the Rivers and Water Supply Commission. The scheme was partly installed by the Council but the West Tamar Water Supply Act 1960 provides for the completion of the scheme and any further extensions to be carried out by the Commission. The capital cost of the scheme to 30 June 1966, was $2,126,773.

The Prosser River Water Scheme is managed by the Rivers and Water Supply Commission. This scheme provides water for the Sodium Alginate Industry at Louisville and supplements the water supply for the township of Orford. The capital cost of the scheme to 30 June 1966, was $381,118.

PRIVATE FINANCE

BANKING

Cheque Paying Banks: Australian cheque paying banks have been divided, for statistical purposes into 2 Groups, namely (i) the Major Trading Banks and (ii) Other Banks. The Major Trading Banks comprise the Commonwealth Trading Bank, Australia and New Zealand Bank Ltd, the Bank of Adelaide, the Bank of New South Wales, the Commercial Bank of Australia Ltd, the Commercial Banking Company of Sydney Ltd, the English, Scottish and Australian Bank Ltd, and the National Bank of Australasia Ltd. All of these except the Bank of Adelaide operate in Tasmania. None of the Banks included in the 'Other Banks' group operates in Tasmania.

In the table on 'Classification of Advances Outstanding within Tasmania' advances to resident borrowers and non-resident borrowers are shown separately. Resident borrowers cover institutions (including branches of overseas institutions) engaged in business in Australia and persons permanently residing in Australia. Non-resident borrowers cover all other persons and institutions incorporated abroad, which though represented, do not carry on business in Australia. Advances to resident borrowers have been classified as business advances, advances to public authorities, personal advances and advances to non-profit organisations. Business advances have been further classified to the main industry of the borrower and include advances to partnerships, companies and other institutions engaged in business in Australia, advances to persons actively engaged in business on their own behalf if the advance is mainly for business purposes, advances to mutual, co-operative and benefit societies which distribute their profits or surpluses (if any) to members by way of dividends, rebates on charges for goods and services or increased benefits. Advances to public authorities cover advances to local and semi-government authorities including separately constituted government business undertakings but not Commonwealth or State governments. Personal advances cover advances to persons for purposes other than carrying on a business. Advances to non-profit organisations cover advances to organisations which do not operate for the purpose of making a profit or gain to its individual members, any income of the organisation being used for the purposes of the organisation or for the benefit of the community.

Savings Banks: In addition to the Savings Banks operated by each of the Major Trading Banks, except the Bank of Adelaide, there are two Trustee Savings Banks operating in Tasmania, namely the Hobart Savings Bank and the Launceston Bank for Savings. In addition to the summary of all Savings Bank activities provided in this Bulletin, some specific detail is provided on the two Trustee Savings Banks which operate only in Tasmania.

GENERAL INSURANCE

As the financial year of all companies does not end uniformly on 30 June, the statistics for each year are in respect of the annual accounting periods of companies which ended at any time during that year.

The tables contain selected items of statistics and the information shown is not suitable for the construction of a 'profit and loss' statement or 'revenue account'.

The statistics in this Bulletin conform substantially to the following definitions and should be interpreted in accordance therewith.

Premiums represent the full amount receivable in respect of policies issued or renewed during the year, less returns, rebates and bonuses paid or credited to policy holders during the year. They are not adjusted to provide for premiums un-earned at the end of the year, and consequently the amounts differ from 'earned premium income' appropriate to the year. In recent years, as the premium volume has been increasing, the figures shown in the tables are greater than the premiums earned by insurers.

Claims comprise claims made during the year, plus the estimated amount of outstanding claims at the end of the year, less the estimated amount of outstanding claims at the beginning of the year. Salvage and other amounts recoverable have been deducted.

Contributions to Fire Brigades, Commission Agents' Charges and Expenses of Management represent mainly charges paid during the year.

Taxation represents mainly payments made during the year and includes Income Tax, Pay-roll Tax, Licence Fees, Stamp Duty (where paid by the company) etc. Income Tax paid during the year is based on the income of earlier years.

LIFE INSURANCE

The information presented in this Bulletin has been compiled from returns of Insurance Companies operating in Tasmania for the financial years which ended during the year stated.

GOVERNMENT, LOCAL GOVERNMENT AND SEMI-GOVERNMENT PENSION AND SUPERANNUATION SCHEMES

This section contains information on the income and expenditure, assets and liabilities, and membership of the State Public Service, local and semi-government pension and superannuation schemes, the State Parliamentary Pension and Superannuation Scheme and Miners' Pension Fund scheme. The information does not relate to uniform periods, but to the financial years of the schemes which ended in the year shown.

The State Government and many local and semi-government authorities have established pension and superannuation schemes for eligible employees, to which both the employer and employee contribute. There are two main types of schemes: those operated through separately constituted funds and schemes operated through life insurance offices.

Details are provided for the combined operations of the following separately constituted funds. (1) State Superannuation Fund, (2) State Teachers' Superannuation Fund, (3) Police Provident Fund, (4) Metropolitan Transport Trust—Retiring Allowance and Staff Pensions Fund, (5) Marine Boards—Independent Schemes, (6) University of Tasmania—Staff Superannuation, Invalidity Pension and Supplementary Pension Schemes. Details are also provided for the combined operations of local government and State semi-government authorities which operate schemes through life insurance offices.

A pension and superannuation scheme has been established for members of the State Parliament. This scheme operates through a fund to which the members of Parliament and the State Government contribute.

The Miners' Pension Fund was established to provide for pensions to miners upon retirement or when incapacitated by injury, etc. Contributions to the fund are made by the State Government, mine owners and miners.

PERMANENT BUILDING SOCIETIES

The Societies, which are registered under the Building Societies Act 1876 as amended, are both savings and deposit receiving institutions which advance funds for home building against the security of first mortgages. Those who invest by taking shares or making deposits are in a separate category from those who borrow to build a home. In other words applicants for loans need not be a member of, or a depositor with the society.

CO-OPERATIVE HOUSING SOCIETIES

These are also known as Terminating Housing Societies and are registered under the Co-operative Housing Societies Act 1963. By their rules, they are to terminate at a fixed date, or when a result specified in their rules is attained. The societies are of two types:

(i) Those societies which are financed through the Home Builders' Fund and which receive Commonwealth-State Housing Loans periodically through the Agricultural Bank as Trustee of the Home Builders' Fund.

(ii) Those societies which are financed through private lenders such as banks and insurance companies.

CO-OPERATIVE CREDIT SOCIETIES

The co-operative credit societies, commonly known as 'Credit Unions', are registered under the Co-operative Industrial Societies Act 1928 as amended. Members contribute capital by taking out shares and making interest bearing deposits; loans are made to members, repayment being by regular instalments.

CO-OPERATIVE SOCIETIES

The information contained in this bulletin relates to co-operative societies registered under the Co-operative Industrial Societies Act 1928 as amended. It does not include information on co-operative societies registered under the Companies Act. In the tables in this bulletin the term 'operating' is used to describe transactions concerned with processing and sale of goods, and 'non-operating' to describe earnings from commissions, discounts, etc.

FRIENDLY SOCIETIES AND UNITED FRIENDLY SOCIETIES DISPENSARIES

Both Ordinary and Special Friendly Societies in Tasmania are registered under the Friendly Societies Act 1888 as amended. Ordinary societies provide customary sick and funeral benefits and are subject to actuarial valuation. Special Societies limit their membership to employees of industrial parent organisations and are not subject to actuarial valuation.

INSTALMENT CREDIT FOR RETAIL SALES

The statistics cover operations of all types of instalment credit schemes which relate primarily to the financing of retail sales of goods, whether the credit is advanced by a retail business or by a non-retail finance business. In general, the term 'instalment credit' is defined as relating to schemes in which repayment is made by regular pre-determined instalments. Types of schemes covered include hire purchase, time payment, budget account and personal loan schemes which relate primarily to financing of retail sales of goods. In these statistics the term 'retail sales' relates not only to retail sales by retail establishments coming within the scope of the Censuses of Retail Establishments conducted periodically by the Bureau, but includes also other sales of goods to final purchasers (e.g. Plant and Machinery).

Figures for amounts financed exclude interest, hiring charges, insurance, etc. Figures for balances outstanding and collections include interest, hiring charges, insurance, etc. Details are not available of these charges or of other items (e.g. rebates for early payments, late payment charges, bad debts written off) which affect the reconciliation of amounts financed, collections and balances outstanding .

FINANCE COMPANIES

'Finance Companies' comprise one of a number of classes of financial institutions. They are defined as companies which are engaged mainly in providing to the general public, credit facilities of the following types:

Hire purchase and other instalment credit for retail sales.
Wholesale hire purchase.
Other consumer and commercial loans and factoring.

The term 'factoring' is used by Finance Companies in different senses, but in these statistics it is applied to the category comprising loans on the security of 'trade' debts (i.e. debts due to businesses for goods and services supplied to other businesses for use in their business or for resale), trade debts purchased, and inventory finance (i.e. finance for trading stocks, other than that included under wholesale hire purchase). While there is little uniformity in the terminology used by Finance Companies, it is fairly common for Finance Companies to group these types of transactions as a separate category in their accounts.

GENERAL NOTES

Values in this publication are expressed in dollars ($) and/or cents (c) Australian.

Where figures have been rounded, any discrepancies between totals and sums of components are due to rounding.

1. EDUCATION

STRUCTURE OF GOVERNMENT EDUCATION SYSTEM IN TASMANIA, 1966

GENERAL

Education is free, secular and compulsory from the child's sixth to sixteenth birthday; all children therefore receive some secondary-level education. The levels of education available are: (i) sub-primary; (ii) primary; (iii) secondary; (iv) tertiary.

LEVELS OF SCHOOL EDUCATION

Sub-Primary: Pre-schools for children $3\frac{1}{2}$ to $5\frac{1}{2}$ years exist in many centres. Although parents have some responsibility for helping meet the initial capital cost, teachers are paid by the Education Department which heavily subsidises other running costs. The Department also provides kindergartens in the larger primary schools for children below the compulsory attendance age.

Primary: A full primary education requires a child to pass through six grades, the mean age of those finishing 6th grade being 11 years 11 months. Schools providing education at primary level are classified as: (i) primary; (ii) primary with secondary grades; (iii) area schools; (iv) district schools. In the case of all but the first category, primary and secondary grades exist within the one school.

Secondary: The secondary level of education may be based on a three-year, four-year or five-year course, depending on the final certificate set as the objective (see Secondary Courses below). Schools providing secondary education are: (i) primary with secondary grades; (ii) area schools; (iii) district schools; (iv) high schools; (v) matriculation colleges. Entry to high schools is on a non-selective basis except where a choice has to be made, e.g. between a high school and an area school; in such cases, a transfer committee makes the decision. With two exceptions all schools are co-educational.

Special: Special schools and special classes are provided for the education of physically handicapped and mentally retarded children at sub-primary, primary and secondary school ages. In addition, correspondence education is provided for pupils at all levels unable to attend school. 'Adult' correspondence school pupils, i.e. persons in the work force taking one or more subjects by correspondence, are excluded from the tables in this publication.

SECONDARY COURSES

(i) **Secondary Schools Certificate:** The three-year course leading to this certificate may be undertaken at all types of secondary school; it is awarded on the basis of internal examination, and the emphasis is practical rather than academic.

(ii) **Schools Board Certificate:** The four-year course leading to this certificate may be undertaken at high schools, district schools and some area schools. Some schools have power to recommend award of the certificate on internal accrediting; pupils of other schools sit for external examinations.

(iii) **Matriculation:** After four years of secondary education, pupils may proceed to the Hobart or Launceston matriculation colleges, or to matriculation classes at Burnie or Devonport high schools. Matriculation may be attempted at the fifth year of the secondary course, or spread over the fifth and sixth year (the subjects passed in the student's first year may be added to those passed in the second year).

TERTIARY EDUCATION

The principal forms of tertiary education are:

University: The University of Tasmania relies, in the main, on the Tasmanian and Commonwealth governments for ordinary revenue and for capital for its building programme. Degree and post-graduate courses are available in the principal faculties.

Technical: Technical colleges and technical classes provide trade, technician, professional, commercial and other courses in major population centres. The Education Department is responsible for technical education.

Teacher Training: Some teachers are trained at the University whilst others take two or three-year courses at teachers' colleges directly administered by the Education Department.

GOVERNMENT AND NON-GOVERNMENT SCHOOLS: NUMBER OF PUPILS AND NUMBER OF SCHOOLS

Government Schools—Primary, Secondary, Area and Special

(a) Generally the figures in this column are significantly lower than those for 'Committed to Higher Courts' appearing on page 20, because they relate to *complaints* (which often embrace several *offences*) whereas lower court cases relate to number of *offences*. It should also be noted that higher court cases frequently proceed under different offences titles from those under which the lower court committals were made.
